

ALGAETROL-76: Thompson-Hayward Chemical Co., Kansas City, Kan.

This algaecide is registered for use in swimming pools, lakes and fish hatcheries, rivers, irrigation ditches, and potable and waste water reservoirs. Treated areas may be used immediately for fishing, swimming, watering or irrigation. The algaecide comes concentrated, in quarts or gallons, and is applied by using hand or power sprayer. Initial treatment should be made when algae first becomes visible and water temperature is above 60 degrees F. Subsequent doses will prevent regrowth, according to the manufacturer. T-300A ROOT CUTTER: Vermeer Manufacturing Co., Pella, Iowa

New root cutter attachment for Vermeer's T-300A trencher features replaceable, carbide-tipped cutting teeth, mounted on 40-inch diameter wheel. Severs roots down to 18 inches below the surface. The unit's compact design — only 46 inches wide — permits operator to travel down sidewalks on rubberized 10-inch crawler tracks with independent hydraulic track drive. Offset design, along with an 18-inch cutting wheel clearance, permits the machine to cut roots along curbing while operating at roadway level. For more details, circle (706) on the reply card.

CLAMP-TITE: Zlp-Penn, Inc., Erle, Pa.

This new vise holds chain saw firmly and securely; frees both hands, allows you to sharpen chain, clean air filter, adjust carburetor or perform other service requirements. Vise screws into a tree stump; the jaws clamp the guidebar and hold the saw in such a position that the chain can be moved freely around the bar. Made of welded steel, the Clamp-tite weighs 2¾ pounds. The vise can also be used to fasten an axe for two-handed sharpening. For more details, circle (707) on the reply card.

ATROPEN AUTO-INJECTOR: Survival Technology, Inc., Bethesda, Md.

This insecticide poison treatment kit has been developed for use wherever organophosphorus or carbamate insecticides are stored, transported, or used. The treatment kit has five prefilled automatic syringes (Atropens) containing the antidote atropine (2 mg. atropine each), plus complete instructions and a training syringe. The kit permits immediate painless treatment without seeing a needle. For more details, circle (708) on the reply card.
