

You'll be A-a-a-all Alone!

(even on pay day)

That's right! With Princeton's "Automatic" Sod Harvester you can harvest up to 27,000 sq. ft. of sod per hour...all by yourself. Eliminates the need for a large field crew. Save time, money, and man-hours.

Designed for large volume sod producers who want to increase production **and** profit. Cuts, aerates, crosstie stacks and palletizes sod...ready to ship, automatically. All you do is steer!

No matter how large your volume...**all you need** is a Princeton "Automatic" Sod Harvester...and **maybe** a radio for company.

There's a Princeton for Everyone.

Reduced costs and increased production means bigger profits. That's why the Princeton "Self-Propelled" Sod Harvester has become the standard for the sod industry. Compare output! Three men and one machine can harvest 22,500 sq. ft. of sod per hour, completely palletized.

For the medium to large volume sod producer who wants quality, high production, and low maintenance at a moderate price.

Models available for various soil and harvesting conditions.

Designed to meet the special needs of the smaller volume sod producer. Operates behind any adequately sized, low-speed tractor. Exclusive "2 minute hook-up" capability allows you complete flexibility in the use of your power supply. With a 3 man crew, you can harvest up to 13,500 sq. ft. of sod per hour, palletized and ready to ship. The "Tow-Boy" Sod Harvester...own a **real** Princeton at one third the cost of our larger machines.
