

The PURR-Wick  
System with

**tu-tuf**<sup>®</sup>  
CROSS LAMINATED POLY-SHEETING

Barriers is a  
Water Conservers

By building your greens, tees and fairways over Tu-Tuf barrier liners the PURR-Wick way you will be able to cut your water usage a minimum of 50%, and you'll save fertilizer, labor and maintenance costs as well.

Thus you will have total control over your water usage through drought or wet periods. The Tu-Tuf barrier retains water and nutrients and redistributes them to the root-zone as needed.

Write or call for free brochure and ask about our perforated sand trap liner.

A 3000 BTU output propane catalytic aerial bucket heater is now available from the T. A. Pelsue Company. The new model 1575 "Stratalytic" heater can quickly be mounted anywhere around the top rail of any aerial lift bucket. It is fueled by a truck-mounted propane bottle, or from an optional disposable day bottle. The heater meets every safety requirement with A.G.A. approved regulator, safety valve and thermocouple control.

Homelite has introduced a gas-line-powered chain saw model with triaxial anti-vibration system, deluxe safety hand guard and single

trigger with safety-interlock.

The VI Super 2 saw is equipped with a powerful 1.9 cubic-inch displacement engine. The new model features Homelite's exclusive Safe-T-Tip anti-kickback device that fits over the nose section of the guide bar. It has a 14-inch cutting attachment.

**Omega**, a fine-leaved perennial ryegrass variety, is now available through Garfield Williamson Inc.

Combining the deep green appearance of a bluegrass with the rapid germination of a ryegrass, Omega is recommended for upgrading established turf and seeding bare spots, slope, traffic areas and other hard-to-grow places.

Although optimum performance occurs in medium to full sun, Omega is also an excellent component of heavy shade mixtures, blending uniformly with other desirable lawn grasses. Omega also has qualities of drought and disease resistance, cold hardiness, minimum maintenance and adaptability to a wide range of growing conditions.

Omega is available in 25 and 50 lb. emblem bags. Blue tag certified — *Poa annua* free.

A new TrueLine pressure spray-type striper developed by Trusco Mfg. Co. uses CO<sub>2</sub> pressure and has a 7-gal. paint tank for striping large parking areas, traffic lanes, and all athletic fields. The paint and pressure tanks are mounted on welded chassis that ride on four ball bearing wheels.

A water-powered chemical injector for injecting liquid and soluble fertilizers and pesticides into an existing or new irrigation system has been introduced by Clearwater Engineering.

The unit has a variable-capacity positive displacement pump, which is powered by the water flowing through an irrigation line. Since the volume and pressure of the flow of water controls the speed at which the injector operates, constant water-to-chemical ratio is maintained.

## HYDROGRASSING & POWER MULCHING EQUIPMENT

### HG-15 Hydrograsser

Power, Precision, Performance. The HG-15 is ideal for applying fiber mulch, seed and fertilizer in one operation. Covers as much as three acres per load of granular solids in 12 to 20 minutes. Reinco's jet agitation system insures against clogging. Less down time for maintenance. HG-15... the profit producer.

### M-80 Trailer Mounted Power Mulcher

Higher production. Lower maintenance. The heavy-duty M-80 handles a quarter of a million pounds of hay per day. Accurate distribution up to 95 feet. Equipped with straight through drive, the M-80 has more power...needs less maintenance.

### TM7-30(X) Trailer Mounted Power Mulcher

The TM7-30 (X) spreads 4 tons of hay per hour. Blows hay mulch up to 60 feet. TM7-30 (X) is also equipped with straight through drive. Discharge spout moves 360° horizontally, 60° vertically. Trailer mount permits on-site mobility, eliminates truck tie-up.
