

A HUSTLER never hibernates.

The HUSTLER mower you buy to save time and money during turf care season stays on the job all year, with easy-hookup attachments:

Edger works from grass or street side.

Catcher/Compactor — ingenious! Paddles pull and compact clippings into tight mass without noisy blower or dust. No loss of maneuverability.

Heavy duty 72" deck for rough cutting, discharges to rear.

Flail cutter, where turf conditions or local codes dictate. 60" cut.

Snow thrower (two stage) clears 54" path. Hydraulic controlled spout direction. Unique HUSTLER tractor design (weight centered over drive wheels) provides extra traction.

ROPS Cab for comfort, roll-tested for safety.

Broom sweeps leaves, debris, snow, removes thatch. 54" swath, 30° angle.

Dozer blade turns HUSTLER tractor into mini-dozer. 60" x 18" spring-load blade raises, lowers hydraulically. Angles 30° right or left.

Tilt-deck trailer. Drive mower on/off to transport at road speed.

HUSTLER Turf Equipment performs like a pro: turns at a touch, trims close, saves payroll cost, HUSTLER 272A or 272A Standard; or Hillside HUSTLER 360.

Call toll-free: (800) 835-3260, or send your business card for name of Distributor and more facts on the mowers that perform like their name.

Echo's cut-off saw attachment for its 60S, 601S, 602VL, 702VL, and 1001VL models uses a 12" blade to cut through such hard surfaces as steel brick, aluminum, iron pipe, concrete and asphalt. Its wrap around handle lends the saw for easier horizontal and vertical cuts through more efficient balance and acts as a handle to keep the blade off the floor.
