IN MINUTES

Vermeer Stump Cutters. Fastest, easiest, most economical method of removing tree stumps. With four powerful machines, each equipped with a big hydraulically controlled cutting wheel that actually chews even large stumps to chips 6-24 in. below the surface... in minutes!

Vermeer Root Cutter. A great preventative maintenance machine that severs tree roots before they buckle sidewalks or streets. Vermeer Log Splitters, available as self-contained units or designed to operate off the

hydraulic system of your tractor. Instant firewood... with 22,000 lbs. of force.

Sure, We Demonstrate... Ask Us!

Protect your investment in young trees with new **GUARD-TEX**® self-adhering tree-wrap

Field-tested, weather-proven GUARD-TEX® tape provides needed protection against splitting, sun scald, and freezing temperatures. Distinctive odor repels rodents and other gnawing or nibbling animals.

Easy-on, Easy-off GUARD-TEX® sticks only to itself, removes easily without leaving gummy residue.

Versatile GUARD-TEX® can be used for grafting and many nursery uses, including those shown below.

staking
tomato plants

training
climbing roses

espaliering
trees and shrubs

We stand out like a green thumb.

Because we're the only magazine to reach the entire residential lawn care service industry.

This is a growth market of 8,000 companies selling chemical lawn care and maintenance services to the 45 million home owner/residential turf market in the U.S.

A market with a 25% growth last year. And \$1.25 billion in sales. And we hit the top management.

Stand out in the one magazine covering the fastest growing service industry in North America. Join us.
