Banvel
tough on weeds,
easy on turf.

Beautiful results! How often have you tried a herbicide only to end up with poor control or damaged turf? No longer. Banvel® 4S, Banvel® +2,4-D, and Provel® give you economical control of more than two dozen difficult weeds. Weeds that other herbicides often miss. The translocating action of Banvel® and Provel® attacks the entire weed, roots and all, to get at deep root and regrowth problems. True season-long herbicides, they can be used in warm or cool, wet or dry weather, and store through the winter without loss of potency. They mix readily in hard or soft water, and may be applied with conventional spray equipment. **Banvel® 4S for tough weeds, Banvel® +2,4-D for pre-mixed chemicals and broader spectrum control of broadleaves, and Provel® for pre-mixed chemicals and broader spectrum broad-leaf control with less Dicamba.** You get beautiful results, at a cost you'll find pretty attractive, too!

Before using any pesticides, read the label.
