Why Plant Marvel?

Because you feed through foliage and roots at the same time.

Liquid-feeding Plant Marvel NUTRICULTURE formulas, on a regular program, all season long gives far greater control over the health and growth of greens than any other single turf management practice. Here's why.

1. Dissolves instantly and completely in water.
2. Compatible with all fungicides, herbicides and insecticides.
3. Safe. May be applied at any time of the year without burning.
4. Very highly concentrated powder form for maximum economy.
5. Harmless to equipment, won't clog spray or mist nozzles.
6. Easily applied by spray rigs, injectors or any apparatus for application of liquids.
7. Instantly absorbed by turf through leaves and roots.
8. Relieves stress or deficiency condition in turf almost immediately.
9. Reduces turf requirement for water during drought periods.
10. To get greater disease and insect damage resistance.
11. Uniform fertility throughout the root zone area.
12. Encourages stolonization and more blades of grass in each stolon for a thicker, springier turf.
