## Lawn Smooth, Rock Tough VEMCO Flail Mowers

Talk about versatile! The Vemco Flail Mower keeps parks, and other large lawn areas smooth and streak-free. It also cuts rocky, trashy areas where ordinary mowers cannot go.

Standard Series mowers, with 42", 48" and 60" widths, have many construction features usually found only on heavy-duty models. Heavy Duty Series, with 60", 72" and 84" widths are tougher yet. Rock Dodger blades swing free in all directions, are practically immune to breakage.

We urge you to compare a VEMCO with any other mower in its class. You'll see the difference and like it.

## Chemicals

**Estech General Chemicals Corp.** has developed a new concept in slow-released turf fertilizers called IB-DU/SCU. The mix blends a three

nitrogen formula with sulfur-coated urea and water soluble urea to provide a three-stage release that lasts up to 90 days.

**Creative Sales, Inc.** has produced an in-store display that tells the story of the MEDICAP systemic implant. The

display contains the convenient "Ten-Paks" that are adequate to treat an average tree, plus ACECAP, a systemic insecticide implant.

**Monsanto Agricultural Products Co.** has developed Roundup, an herbicide for controlling a wide range of perennial and annual weeds and

grasses in one application. It can be mixed with water and applied with boom equipment, hand-held and high volume equipment (including knapsack sprayers), and shielded sprayers.
