USDA Turfgrass Research Field Day, Beltsville Agricultural Research Cen-

Is your golf course golfed out?

Start your turf today on its way to a longer prime of life with Milorganite.

That tired, worn out look can be caused by an overdose over the years of synthetically produced fertilizers.

The synthetically produced fertilizers are OK for awhile...for a quick spurt, but turfgrass professionals are discovering the hard way that the synthetics are not as effective over the long run as naturally organic Milorganite. Turf tires and develops a golfed-out look.

Start your turf today on its way to a longer prime of life with Milorganite.

Naturally organic Milorganite provides all the nutrients needed for healthy, strong turf ...just the way you want to keep it always.

The golf course choice.

*does not burn

WATER PENETRATION AQUA-GRO®

YOUR KEY TO EASIER PREPARATION FOR
WINTER AND NEXT SPRING

Improved water movement with Aqua-Gro gives better drained soil profile.

Better fall color and uniform turf in Aqua-Gro treated plot.

Aqua-Gro gives excellent dew and frost control • Extends playing season, greater club revenues
• Improves Fall insecticide application • Enhances drainage, means less chance of winter injury
• Speeds seed germination for renovated areas • Builds and maintains root system resistance to cold and drought.

AQUA-GRO is available in liquid concentrate or spreadable granular.
