

# Weather-matic Works

and works and works  
works and works and  
day after day  
week after week  
month after month  
year after year

Automatic landscape irrigation systems from Weather-matic are engineered and tested — and proved — to give years of trouble-free service. Costly callbacks for repairs and service seldom bother Weather-matic owners. And with the industry's finest selection of sprinkler heads and its most dependable valves and controllers, you can be sure to put exactly the right volume of water precisely where you want it, when you need it, without waste.

Insist on Weather-matic. Because it works.

**You can't beat the system**

**Weather**  **matic.**
