

Sentinel Swans — The System that Keeps the Geese Away!

- Proven method for control of Canada Geese
- Perfected after years of field testing
- Uses life-size, life-like swan replicas
- Ready to float, no mountings needed

After five years of field testing at the Innis Arden Golf Club in Old Greenwich, Connecticut, Superintendent Pat Lucas introduces the *Sentinel Swan Family System* . . . antidote to Canada Geese "Fowl Play".

The *Sentinel Swan Family System* works effectively for two reasons; the *System* devised by Pat Lucas and the utilization of swan replicas that are life-like, life-size, and *Natural* in appearance. Research bears out that Canada Geese are not easily fooled.

You've read about this new system in "Golf Course Management" and "Golf" magazines. The *Sentinel Swan Family System* makes the geese fly over, not fly down. Eliminates nasty geese problems — unhealthy droppings, packed mower rollers, feather-clogged irrigation suction strainers, dead turf, time-consuming cleanup, and golfer complaints.

Buy from the man who originated *The System That Keeps The Geese Away*. Call Pat if you have questions regarding your specific needs.

Scientific Guide To Pest Control Operations

by Dr. L.C. Truman
Dr. G.W. Bennett and
Dr. W.L. Butts

Domestic: \$29.50* (hardcover)
Foreign: \$34.50* (hardcover)

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS is designed to provide a sound basis for studying the scientific aspects of pest control and promote technical competence. It places emphasis on urban and industrial pest problems. This volume also covers the laws and regulations concerning the pest control industry.

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS is written for owners, supervisors, servicemen, salesmen, students, persons preparing for state certification under the EPA/state programs for commercial pesticide applicators, and people interested in structural pest control.

The SCIENTIFIC GUIDE TO PEST CONTROL OPERATIONS - a *must* for anyone involved in the field of pest control!
