

# SHOCK TREATMENT.

Without Wilt-Pruf

When plants lose too much moisture during a move, the result can be wilting, shock — even death.

Wilt-Pruf® helps prevent transplant shock by providing a protective coating that holds in essential moisture.

With Wilt-Pruf, you'll have less transplant failures and, as a bonus, more satisfied customers. Another plus, it's

P.O. Box 4280, Greenwich, CT 06830-0280. 203/531-4740

Circle No. 181 on Reader Inquiry Card

biodegradable and organic.

Wilt-Pruf is the ideal way to give your shrubs the edge when transplanting. Don't make a move without it.

# WILT PRUF

ANTI-TRANSPIRANT

Guards against moisture loss year 'round.

# THE MULCHING SOLUTION

## The Goossen Bale Chopper

In the field since 1982, the Goossen Bale Chopper is a proven machine which lets one or two operators lay down an even layer of mulch on newly seeded lawns. It chops and spreads virtually any material that can be used for mulching (or for composting!). And the lawns can be of any size—the Bale Chopper is compact and easy to maneuver in even the smallest residential applications. That makes it a very efficient and practical machine for landscaping.

The **Landscapers' answer** to the problem of clumps and gaps in mulching coverage, the Bale Chopper gives you even-blanket coverage for better germination, with better moisture retention. And you get this excellent coverage at a substantial savings in labor, because you eliminate the need to tear and spread bales by hand.

The Bale Chopper is available complete with interchangeable hose and directional spout, in both self-powered (gas engine) units and tractor-hitch PTO models.

Call right now and let us show you how the Goossen Bale Chopper can save you time and money!
