**CHOOSE THE
TURF TEAM WITH
THE BETTER GAME PLAN**

COUNTRY CLUB 19-4-6 FERTILIZER AND CRABGRASS PREVENTER WITH TEAM™

It's a contest that's played out on the ground—healthy grass pitted against crabgrass and goosegrass. But Country Club 19-4-6 Fertilizer and Crabgrass Preventer with Team™ has the defensive strength of benefin and trifluralin, yet it's gentle on your turf. The combination of these two proven herbicides kills the seeds of annual bluegrass, smooth and hairy crabgrass, goosegrass, as well as green and yellow foxtail as they germinate. And our premium quality fertilizer strengthens both Northern and Southern turfgrasses at the same time.

It can all be accomplished in one pass for full season control with Lebanon's new Country Club 19-4-6 Fertilizer and Crabgrass Preventer with Team™. Follow application instructions on the package—because successful teamwork hinges on everyone following the game plan.

Better turf care from the ground up.

If you have any questions about our new Country Club 19-4-6 Fertilizer and Crabgrass Preventer with Team™, or any of our other products and services, call our *Greenline* today at 1-800-233-0628; in Pennsylvania, call 717-273-1687. And start getting help with your game plan against crabgrass and goosegrass . . . from the ground up.
