Sno Bird trailers offer multi-purpose use

Sno Bird Trailer Co. Inc. offers six models in its expanded line of utility trailers.

The six are available in 12 ft., 16 ft., and 22 ft. bed lengths, and can accommodate several different pieces of equipment such as wide front end mowers and utility tractors.

Ideal for commercial mowing, landscape, and general ground care

services, the trailers feature beaver tail and loading ramp, splash guards, tie-down loop brackets, 10-ply tires, 7-gauge rims, and a standard lockable tool box. Capacities

range from 1850 to 7000 lbs.

4-Gallon Timesaver

When you buy a commercial mower from Kees, you get a big, 4-gallon fuel tank, because at Kees, we know what you want from a mower. You want it to get you through tough mowing jobs quickly and efficiently. But stopping to gas up slows you down.

So does mower downtime. That's why Kees mowers are built with superior materials and workmanship that gives you years of dependable, trouble-free service.

All Kees heavy-duty commercial mowers feature sleek design, Ultra High-Lift blade and fully baffled underdeck for close-quarter mowing and efficient grass clipping discharge.

Kees mowers are built with the operator in mind, with easy-operating fingertip controls, quick cutting height adjustment. Options include easy-riding sulkies, large capacity grass catchers and electric-start engines (48" and 60" models).

There's a Kees Mower for every job. Choose the one that's right for you — 32", 36", 48" or the big new 60" model. But choose Kees, because we know what you want in a commercial mower.

Floating pump requires minimal maintenance

Barebo Inc., manufacturer of Otterbine products, also manufactures a gas-powered floating evacuation pump that has no seals to wear out and requires little maintenance.

The lightweight portable pump has many uses. It irrigates; aerates fish ponds; cleans boats, docks, and equipment; and drains standing water, evacuation ditches, swimming pools,

sand traps, and other flooded areas.

It requires no suction hoses, foot valves, or priming, and discharges water at a rate of 320 small GPM.

Toro Irrigation debuts EL-6+ controller

Toro Irrigation releases its EL-6+ Controller, designed for residential and light commercial use.

Available in a Cyclocac plastic cabinet, the EL-6+ controls up to six stations with individual station timing ranging from three to 60 minutes. Two stations provide up to 12 hours for drip irrigation. The EL-6+ timer is ready to perform immediately after dialing-in watering times.

The EL-6+ provides individual station control for automatic or manual operation. Watering schedules can be checked at a glance and no back-up batteries are needed to maintain a program in the event of a power outage.
