

profits by eliminating the time and cost of hand mulching.

The unit shreds and blows mulching material quickly and with a higher quality cover, allowing for faster more uniform growth. The included extension hose is for difficult-to-reach areas.

Mulching applications include newly-seeded lawns, bedding plants, around trees and shrubbery, and agricultural applications such as berry beds. Optional models and attachments are available.

Asphalt paver perfect for landscape market

An asphalt paver from Salsco, Inc. is perfect for the landscape/golf course industry. It will pave walks, bike paths, guardrail aprons, highway shoulders, utility trenches, carparks, park paths and golf cart paths.

According to its manufacturer, the Sidewalker increases production by 60 percent and decreases manual labor by 60 percent.

The Sidewalker paves swaths from 36 to 72 inches at 50 feet per minute. It has a free-floating screed with adjust-

ments to control asphalt thickness and compensate for variations in ground contour.

Correction

In the January issue of WEEDS TREES & TURF, a news release appeared on page 6 about a new engine that Briggs & Stratton was to have introduced at the Golf Course Superintendents Association of America trade show.

However, the company's advertising agency (The Cramer-Krasselt Co.) says that, "due to an unanticipated pushback in production, there exists some ambiguity as to when the product will actually be available."

Olathe

MODEL 12
P.T.O. CHIPPER

PORTABLE
DEPENDABLE

THE MULCHING SOLUTION

Goossen Bale Chopper

In the field since 1982, the Goossen Bale Chopper is a proven landscaping machine. One or two operators lay down an even layer of mulch on newly seeded lawns of any size (the Bale Chopper is easy to maneuver in even the smallest residential applications). The even coverage, WITHOUT tearing and spreading bales by hand, means better moisture retention, better germination.

Complete with interchangeable hose and directional spout available on both self-powered (gas engine) and tractor-mounted PTO models.
