Reubens

Canada bluegrass

U.S. Plant Patent No. 3823

The right grass for water-stressed roughs, marginal maintenance areas.

Also an excellent mixture component for low-maintenance fairways and other specialized turf areas.

Reubens made its reputation in tough reclamation areas where water and nutrients were low.

These characteristics make Reubens an excellent choice for golf course roughs under drought stress or marginal maintenance conditions. Reubens is also an excellent compo-

Available through your local wholesale seed distributor or

W. 5300 Jacklin Ave., Post Falls, ID 83854-9499
208/773-7581 FAX 208/773-4846
TWX 5107760582, Jacklin PFLS

nent in fairway seed mixtures designed for low-maintenance.

Reubens germinates faster, is lower growing with dark green appearance in spring, then progressing to a blue-green color.

Insist on Reubens for your water stress or low-maintenance areas.
