Wood, deck sealer for dimensional stability

Standard Tar Products new USOL Organiclear WDS wood and deck sealer is a penetrating, weather resistant sealer specifically formulated to

help preserve the dimensional stability of untreated and pressure-treated wood.

The ingredients penetrate deeply

into the wood to form moisture-guard barriers that repel water droplets, yet allow the wood to breathe. Since it penetrates the surface, WDS will continue to provide water repellancy long after the initial surface beading has receded.

The WDS formulation protects wood from damage due to the elements: sun, sleet and wind-driven rain. Helps prevent wood from splitting, warping, cracking, swelling or shrinking.

The clear finish highlights the wood's natural grain.

If a touch of color is desired, one of several stains may be used. The stains contain inorganic pigments that resist color changes due to exposure to ultraviolet radiation as well as reduce the surface degradation of the wood.

Fungicide is pre-mixed, pre-measured, proven

New TwoSome flowable fungicide from Lesco is a combination of chlorothalonil and fenarimol, two proven ingredients for contact and systemic control of most fungal turfgrass diseases.

According to Lesco, TwoSome offers one-container convenience and

EASY COME.

Top row: Leaf-feeding caterpillar, Mealy bug, Japanese beetle, Bagworm, Gypsy moth. Bottom row: Cankerworm, Leaf skeletonizer, Tent caterpillar, Webworm.

accuracy. Chlorothalonil, a contact fungicide and fenarimol, a systemic fungicide, are specifically formulated in a pre-measured 16:1 ratio to form a liquid product package in a one gallon container. The general use rate of one

gallon per acre aids in measuring convenience.

Lesco says TwoSome effectively controls a broader spectrum of

turfgrass plant diseases like summer patch, leaf spot, dollar spot, brown patch and gray snow mold.

California accepts product for lawns, ornamentals

California has accepted registration of Tempo 20 WP insecticide for use on home lawns and ornamentals, according to a report from Mobay Corporation.

Mobay says that Tempo, a synthetic pyrethroid, controls more than 40 of the toughest turf and ornamental insects, including aphids, armyworms, whiteflies, thrips and ticks, with significantly less active ingredient than standard insecticides.

"Tempo performs as well as or better than standard insecticides at a competitive price, with up to 80 percent less active ingredient, minimizing environmental impact," notes Dan Meek, Mobay turf and ornamental product manager.

"Excellent insect control with less

active ingredient and low human toxicity are tremendous benefits in such an environmentally sensitive state," says Meek.

EASY GO.

NEW!

The invasion is coming. An army of hungry insects, ready to destroy everything you've worked so hard to achieve.

But with new TEMPO® insecticide, they're stopped dead in their tracks. On arrival. With excellent residual

control. And all while using about 60% less chemical than most of the competition.

It's really a simple idea. Ornamentals need protection when insects mount their attack. With new TEMPO, the battle is over before it's even started. No contest.

New loaders compatible with popular tractor

Du-Al's new model 205 and 210 loaders are compatible with the Case-IH models 5130 and 5140 Maxxum tractors.

The loaders mount in minutes thanks to a patented Spee-D-Tach system, which operates with a couple turns of a wrench.

The 2025 and 210 loaders also feature Spee-D-Change attachments for quick-change versatility.

A self-level system on the Du-Al 210 loader helps prevent unnecessary spillage while loading.

The 6-, 7- and 8-foot buckets are

located close to the front wheels for good load balance.

Du-Al's 205 and 210 loaders are designed for low maintenance, convenience and operator safety and are available for 2-wheel drive tractors as well as front-wheel assist models.

New heavy-duty blades hydraulic and adjustable

Land Pride has developed two new series of heavy duty rear blades. The series 45 and 55 rear blades are for 90-hp and 150-hp tractors.

Each blade can be hydraulically offset and hydraulically tilted, and are manually adjustable.

Both the series 45 and 55 blades can

be angled as much as 45° for road grading and windrowing.

A heavy-duty, rolled 19" mold-board creates consistent and constant dirt flow.

All cutting edges are high carbon, heat-treated and replaceable. A retractable parking stand allows easy hookup.

The full range of options for Land Pride heavy duty rear blades in-

cludes skid shoes, side plates and gauge wheels.

Mower models feature heavy-duty engines

The Excel Hustler 400 and 440 out-front rotary mowers use liquid-cooled, four-cylinder Ford gasoline engines.

The Hustler 400 sports a 45-hp engine, while the 440 is powered by a 54-hp engine.

Excel reports that both engines are factory-set at 3000 rpm for peak performance and long life, and feature a distributor-less ignition system which reduces routine maintenance.

Both the 400 and 440 feature the Hustler dual-hydrostatic drive system, which is combined with twin-level steering for true zero-degree radius turning. One-hand control provides unmatched maneuverability in braking and forward and reverse turns.

Control products available in quart-sized containers

Ciba-Geigy introduces new quart containers for its Triumph insecticide, Banner fungicide and Pennant herbicide.

The new quart containers are an advantage primarily to first-time and small-quantity users of the products, according to Larry Dull, senior group leader of packaging application and development.

"The new containers make the products more convenient for users who don't need a gallon or more of the products on hand," says Dull.

"In addition, first-time users can sample the products easily, small quantity use is simpler and site-to-site transportation is easier."

Recent label amendments allow Banner to be used to control gray leaf-spot on St. Augustinegrass, and gray and pink snow mold on all labeled grasses. The new label also allows the product to be used for broad-spec-

trum disease control on virtually all nursery (field) ornamental plants.

Pennant's new label allows use on virtually all landscape and nursery planting, including residential land-

scapes. In addition, Pennant can be used on more ornamental plants to control more weeds and grasses.

Triumph is a restricted-use insecticide for use only by certified applicators for insect control in lawns.

Mower improvements for easy operation

The Toro Company has introduced improvements to its heavy-duty line of ProLine mowers which increase ease of operation and performance.

Toro has added a new self-propelling system for longer life, a new fuel tank which is 33 percent larger and Vac-U-Power blades for improved bagging.

Toro reports that in tests with commercial cutters, the new self-propelling system lasted three times longer than standard systems.

The redesigned transmission includes new needle bearings with grease seals on the output shaft for increased durability.

The transmission's center pull engagement allows for equal load on the bearings instead of loading one side.

The reversed gear sequence has a third gear in the center to match up with the center pull engagement to allow for equal load on the output shaft.

Also included in the new self-propelling system are plastic double-seal wheel covers and sealed pivot arms which keep out sand and debris.

PRODUCTS from page 58 Hill climbing a specialty with four-wheel drive

Jacobsen's versatile Turfcut T422D now features an on-demand four-wheel drive. A differential lock gives the T422D even greater traction to tackle slopes too steep for two-wheel

drive mowers.

Jacobsen reports that the Turfcut T422D has a low maintenance, liquid-cooled diesel engine for years of trouble free service. A high efficiency hydraulic implement drive provides smooth, quiet power to attachments.

The Turfcut can be equipped with front mounted 60- and 72-inch rotary mowing decks, or Jacobsen's 60-inch fine-cut flail. In addition, a snow thrower, straight blade, blower or rotary brush can be connected to the T422D for all-season

maintenance work.

New four wheeler priced to be competitive

Haul Master has introduced a four-wheel utility vehicle for use in governmental, municipal, commercial and industrial applications.

The model HX-4480F-B is equipped with a 16 hp, 440 cc, overhead valve Briggs & Stratton engine. Haul Master says it is offered at a lower price than any comparable vehicle on the market.

Standard features include electronic ignition, automatic transmission, automotive style controls and steering wheel, hydraulic disc brakes and more. Options include dual fuel tanks, steel cab, turn signals, and hydraulic tilt cargo bed.
