Mistaken plant

To the editor:

Your February issue included an article entitled "Shout Spring With Colorful Bulbs" by Ann Reilly. While the article was well written, I did note one error. The caption under the first photograph indicated that the scene was located in Colonial Williamsburg; however, this is not the case. The photograph was taken in the Virginia Beach Municipal Center.

While we are pleased and indeed flattered that our efforts have been confused with those of Colonial Williamsburg, we would like to, nonetheless, point out this error.

Edward S. Barnes

Landscape Administrator
Virginia Beach, Va.

To the editor:

Regarding Dr. Rao's answer to a question on pH adjusting in *LANDSCAPE MANAGEMENT*, February):

Additional products

widely used to buffer pH (not acidize the tank as most other iron products or phosphoric acid will do) are Agri-Plex and Lawn-Plex by RGB Laboratories. We don't know of any other micronutrient products which are true buffers (adjust pH up or down) besides the above-mentioned products. Therefore, you need not buy pH-adjusting solutions; you get the iron/micronutrients for nothing.

Stephen L. Gaynes
RGB Laboratories
Kansas City, Mo.

Correction

In the special advertising supplement which appeared in the February issue of *LANDSCAPE MANAGEMENT*, it was stated that Paul Luccia works for Heyser Landscaping.

Luccia is not, nor was he ever, employed by Heyser. *LANDSCAPE MANAGEMENT* apologizes for the error and any inconveniences attributable to the error. □
