

PRODUCT REVIEW

'Boom' applicator greatly reduces spray product drift

Environmental Technologies has introduced the "ultimate" walking boom spray applicator that virtually eliminates spray drift to ensure the spray goes and stays where you want it. The enclosed design also improves operator and environmental safety while reducing public complaints.

The Drift Guard WB70 is a 3-section boom that follows ground contours to ensure accurate spray application.

The wings fold for easy transport and storage. The walking boom also comes standard with a nozzle flow monitor, pressure gauge and digital speedometer.

An optional "chariot" unit lets you load and transport the sprayer.

W-2 form report generator available for tax needs

Armor Systems has the Report Generator W-2 Form Format software.

The format, which requires the use of the Premier Report Generator and Payroll modules, is perfect for large and small operations that incorporate Advance EIC Payments, have employees in multiple states or have special W-2 printing needs.

By using the new format, companies with employees in two states and localities, or those who have special printing needs can eliminate multiple print runs.

In addition, this format package reports Advance EIC Payments amounts in a separate box on W-2 forms, so employees will no longer have to fill in the Advance EOC Payments by hand.

New container reduces exposure to products

Monsanto Company is coming out with a new 2-1/2 gallon herbicide container that it says eliminates the foil seal, and features an innovative no-glug, no-drip design.

The patented container reduces user exposure to herbicides and makes herbicide handling easier and faster.

The no-glug pouring effect is achieved with a large, "air-flow" handle designed with a special split inner opening, which

lets air flow back into the container at the same rate the liquid empties, to create a smooth, fast-pouring action.

A special no-drip lip keeps contents from running down the container's exterior while pouring, and a large handle makes for easy carrying and lifting.

New sprayer/foamer line features high flow rate

Eagle Power Products announces its new line of portable, heavy-duty sprayers and foamers. All units have a steel tank construction ranging in size from 2.6 to 13.2 gallons.

The sprayers are quickly charged and capable of 170 psi of pressure, with high flow rate.

Individual replacement parts are also available.

New hydrostatic mower cuts back on maintenance

Ransomes America Corporation introduces a new, Ransomes Bob-Cat Hydrostatic Drive walk-behind mower. Designed to cut up to 24.6 acres in an eight-hour day, the mower features an infinitely variable number of ground speeds for optimum productivity.

The hydrostatic drive's transmission features dual Sunstrand/Hydrogear pumps and Ross wheel motors. Fingertip levers control independent power to each wheel for moving, stopping, power turning and reverse. The result is exceptional maneuverability in confined areas. Controls for blade engagement, throttle and wheel tracking are conveniently located on the panel and handlebars.

Kohler, Kawasaki and Vanguard air-cooled engines are available.
