### Correction

■ In the January 1995 issue LM mistakenly reported that Providence creeping bentgrass had been developed at the Univ. of Arizona. The developer, in fact, was the Univ. of Rhode Island.

*Tired of wearing what you're spreading?*

**\$49.<sup>95</sup>**

The *Applicator's Friend*<sup>™</sup> shield is your solution.  
The *Applicator's Friend*<sup>™</sup> shield:

- A transparent shield that encloses rear portion of spreader to limit applicator's exposure to spreader material during operations.
- Available for Lesco and Scott's R7X commercial spreaders.
- Made of top quality, durable, corrosion-resistant materials.
- Does not affect spreader operation or spread pattern.
- Cleans easily with water.
- Mounts in minutes with a drill and screwdriver.
