Our Transplant Patients Have Fewer Rejections

MYCORRHIZAE

Mycor™ Tree Saver™ Mycorrhizal Fungi Inoculant Dramatically Reduces Transplant Losses, Three Ways:

- 1. Mycorrhizal Fungi:** These endo- and ectomycorrhizal fungi enhance water and nutrient uptake, and improve resistance to disease and environmental stress.
- 2. Terra-Sorb™:** Water-absorbent hydrogel ensures water availability to prevent drought.
- 3. Biostimulants:** Organic seaweed, yucca extracts and humic acids stimulate root growth and aid in rapid establishment.

Order Mycor™ Tree Saver™ Now, and Receive Healthy Start™ Biofertilizer Tablets, FREE!

When you place your first order for 150 - 3 oz. handy paks or a bulk 5-gallon pail of Tree Saver™, we'll include a 10 lb. box of Healthy Start™ 12-8-8 Biofertilizer Planting Tablets to help get your plantings off to the best possible start. In addition to natural organic nutrients and humic acid, Healthy Start™ Macro Tablets contain the slow-release nitroform fertilizer, along with nitrogen-fixing and phosphorus solubilizing bacteria, which new plantings need to take hold... and take off!

IT'S NOT EASY BEING Green

BUT IT JUST GOT EASIER.

Faster Results. Fewer Hassles.

Flexx™ is a potent, dry water soluble biostimulant with fully-chelated micronutrients, nitrogen fixing and phosphorus solubilizing bacteria and Yucca extract wetting agent. The fast-acting Flexx™ formula stimulates root growth, improves resistance to stress and disease, and promotes greener, denser turf that plays more consistently.

Damaged Green not treated with Flexx

Packaged in pre-measured 7 lb. bags that treat 1 acre, dry Flexx™ Turf Premix costs less per application, ships more economically, stores more efficiently and won't freeze, separate, degrade or ferment on the shelf like most liquid biostimulant products.

Damaged Green treated 3 times with Flexx™ after 2 months
