PlanetAir Aerator

...with its patented planetary motion and unique coring tine design, relieves the hard pan effect. A soil-relieving tine is also available that truly aerates with no cleanup.

The 12 tines penetrate the earth to a depth of 4 inches with a span of 48 inches wide. The tractor's forward speed determines hole spacing, making the PlanetAir highly productive with low PTO horsepower requirement. Cleanup is minimal due to its pulverizing capability.
