THE ULTIMATE WHEELBARROW

Spreading mulch and compost by hand is a costly, labor intensive process. It limits production and puts workers at risk for injuries. The Express Blower will turn an inefficient process into a profit center and blow your competition away!

The Express Blower can be operated by one person, with remote control, in any weather, on any terrain. Spread mulch, compost, soil mixes, playground chips or any number of other organic materials for landscaping, lawn restoration, erosion control and much more.

With our ALL NEW Injection System, the Express Blower can inject seed, fertilizer or other additives WHILE BLOWING! Install a lawn with soil mix and seed, or blend weed inhibitors with mulch. You can even topdress and overseed turf with only one application.

Get a jump on your competition. Call today and find out how you can expand your possibilities with an Express Blower!

Turfco Sells Lawn Equipment Factory Direct

Turfco Manufacturing Inc., based in Minneapolis, has announced a new direct purchase program for its lawn care products line. The new program will be available to landscapers and lawn care firms involved in commercial turf maintenance.

The new "Turfco Direct" program began November 15, 1999, with important new features for buyers, such as:

- 90-day "same as cash" purchase option
- No payment for 120 days
- 14-day "satisfaction assured" approval period
- Extended two-year new equipment warranty period
- A new "Parts Direct" overnight delivery program
- Toll-free phone ordering at 800-679-8201
- Online ordering and purchase options at www.turfco.com

"Customers receive products faster for less," says President Kinkead.

Direct delivery now saves you time and money.

"This new program was developed after very deliberate and careful market analysis," said George Kinkead, Turfco President. "The fast pace of product development and improvements makes it imperative that new products be made available to end users as rapidly as possible. For example, Turfco has introduced 12 new products to the market just in the past seven years. Yet, the "main-line" dealer operations focus most of their efforts on their primary product lines, so renovation and specialty products tend to get lost in the shuffle."

Kinkead says offering both products and replacement parts directly to customers will shorten their turn-around time for getting new equipment into operation, as well as getting machines back to work quicker. "Our product designs now make it possible for equipment owners and operators to make most repairs and adjustments right in the field, using regular hand tools."

Kinkead continued "Our turn-around time will be shorter and our factory will be more responsive. The company's golf course products will continue to be marketed through our existing distribution channels."

The new "Turfco Direct" phone number is (800) 679-8201. Fax requests and orders can be sent to (612) 785-0556, mailed to Turfco Manufacturing, Inc., 1655 101st Ave. N.E., Minneapolis, MN 55449-4420 or e-mailed to sales@turfco.com. For fast, immediate savings, visit the company's website at www.turfco.com.

The new "Turfco Direct" program will include Turfco's lawn aerators, sod cutters, edgers and lawn overseeder.
