**AERA-vator**<sup>®</sup>  
By First Product Inc.

Thank you for introducing the AERA-vator to the Green Industry! My company and its clients have been please with the performance of your product. In the past, after using many methods of aeration, we found the AERA-vator far superior to any other method of core plugging, aerating, detaching or slit seeding. Our company has doubled its production in the past

year and increased profits by an unrealistic amount. Unlike other machines on the market we have experienced very little down time with the "AERA-vator" as well as virtually eliminating callbacks due to poor jobs in dry conditions. We look forward to another great year of aeration as we present your product to the public.
