### COMPACT WALKER TRACTOR MEETS INDUSTRY'S LARGEST DECK

Walker Manufacturing Company, producers of compact riding mowers, introduces the industry's first 74" Side Discharge Deck - the largest cutting deck for a mid-size tractor.

Although it is Walker's first four-bladed design, this larger deck has many of the same features used on other Walker gear-driven decks. The narrow, tunnel design of the in-line, timed blades offers a true finish cut, aids in scalp resistance and gives the same powerful, clean discharge pattern that Walker side discharge operators have enjoyed for years. The combination of Walker's full-floating deck suspension and castering gauge wheels at the back of the deck help hold the contours of the terrain and also help prevent scalping. Just like all other Walker decks, the DSD74 tilts up to 90° for easy blade and deck maintenance. Available Spring 2002.
