## Steel edge

**Pro-Tech Manufacturing and Distribution** created the IST Sno Pusher as the first steel trip edge designed for Sno Pushers to incorporate the longevity and limited moving parts of rubber-edge pushers. This urethane-based technology does not require springs or hinges. The design incorporates extended-wear shoes for a balanced, even push — along with a modified angle in the moldboard. According to the manufacturer, these two features, combined with the urethane tripping mechanism, provide a loaded torque on the steel edge that ensures effective ice scraping ability and a safe, consistent tripping mechanism. ## Know boundaries

It doesn't matter what type of equipment you use and how clear you clean the pavement — if you gouge turf, you get unhappy customers. Mark boundaries clearly with snow markers from **Blackburn Manufacturing**. Standard snow markers are 4 ft., and for areas with more snow depth, add a bright marking flag to a taller pole. Custom printing of your business name/logo/phone is available on 14 colors of weather-resistant flags.

## Slick is standard

Available in two models (the 8 ft., 2 in. XT and the 9 ft., 2 in. XT), **Boss'** new Poly Power-V XT Plow features a slick poly surface that lets snow easily slide off the blade — saving on fuel costs and minimizing wear and tear on the vehicle drivetrain. The multi-position snowplow also features a 37-in. flared blade wing, which improves snow discharge for maximum performance. Other standard features on both models include 0.5x6-in. high-performance cutting edges, synchronized blade movement with full blade trip design and an enclosed high-performance hydraulic package. The easy SmartHitch system and the SmartLight 2 visibility system are also standard. [BossPlow.com](http://BossPlow.com) or 800/286-4155

## Easy to adjust

**Blizzard's** Power Plow is the original adjustable-wing snowplow that can hydraulically expand its moldboard width at the touch of a button to efficiently match any plowing situation. Choose from four primary wing positions: compact, wide pass, bucket bade (scoop), or windrow.

## Recover costs

Do you want to implement a costs-per-hour software solution into your back office business software system? Check out **Profits Unlimited's** "Know Why You Charge What You Charge" CD from Green Industry business consultant Wayne Volz. This CD runs in Microsoft Excel and is designed in a spreadsheet format. Simply fill in the blanks and the spreadsheet calculates your costs per hour of operation based on your specific overhead, expenses and use-rates. ## Quiet power

**Fisher's** new second-generation Poly-Caster spreader line combines a low-maintenance, rust-proof, double-wall poly hopper with a smooth, quiet electric-drive system for the ultimate in de-icing performance to effectively spread all ice control materials. Available in three sizes (1.5, 1.8 and 2.5 cu. yd.), there's a Poly-Caster spreader ready to meet your ice control needs. [FisherPlows.com](http://FisherPlows.com)

## High performance

**Hiniker** has added a pair of 1032 Series 10-ft. plows to its line of trip-edge snowplows, available in either electric/hydraulic or central hydraulic powered configurations. The 32-in.-tall moldboard uses a dent-resistant, corrosion-free plowing surface made of low-friction HDPE polyethylene. A compact joystick controller can be surface-mounted or handheld. Super-bright quad halogen headlamps are included.

## Change it up

Available in 8.5- and 9.5-ft. lengths, the all-new **Meyer Super-V2** Snowplow features a pistol grip controller with one-button functionality, as well as interchangeable components with the standard Meyer Super-V plow. The manufacturer claims that the blade throws snow up to 62% better than a standard V-plow, and its snow rolling action reduces vehicle stress. The blade's wings taper from 30.5 in. up to 38 in.

## New size

**SnowEx's** new 3-cu.-yd. capacity V-Maxx 9300 V-box-style spreader is compatible with 1-ton dump-bed and flatbed trucks. It features the patented SnowEx Material Feed System — a multi-angle, polyethylene hopper with a built-in, inverted "V" baffle configuration. Also included is an attached vibrator to reduce clumping and allow continuous material flow, regardless of what is being spread. A digital LED display with status monitoring and system protection is standard, as well as an auto-reverse function in the event of auger jams.

## PERFORMANCE YOU CAN TAKE TO THE BANK!

A penny saved is a penny earned. But how does saving up to 680,000 pennies — \$6,800 — per vehicle/per year sound for your operation?

- SAVES Maintenance**  
No pulleys, sprockets, belts or chains.
- SAVES Material**  
Independently controlled auger and spinner speeds.
- SAVES Manpower**  
Patented auger drive systems ensure continuous flow.

## Less weight, all muscle

The new **Western HTS** snowplow is a full-size, full-featured snowplow designed specifically for today's lighter half-ton, 4WD pickup trucks. It handles standard-duty commercial — and extended-use homeowner — applications, providing pro-like performance without the extra weight. [WesternPlows.com](http://WesternPlows.com)
