Increase productivity

Case's new power side discharge bucket for skid steers and compact track loaders increases machine utility, making it possible to do more work with the same machine. The power side discharge bucket spreads a variety of other materials, including stone, mulch or aggregate. The bucket, available in 60-, 72- and 84-in. sizes, can be operated with a choice of either a left or right discharge position, and has adjustable discharge gates. CaseCE.com or 866/54CASE6

Prevent and control

DuoCide Insect Control treats a variety of common insect pests, including ticks, grubs, fire ants, mole crickets, European crane flies and more. Similar in cost to other single-mode insecticides, the product combines carbaryl and bifenthrin into a unique multi-mode formula that enhances performance both above and below the surface. DuoCide's performance is confirmed by multiple university research studies, and is formulated on the dispersible DG Pro carrier for easy spreading, low visibility and maximum performance. Before and after

Visual Impact Imaging offers professional landscape design software. The easy-to-use Earthscapes application allows users to communicate their landscape vision through the use of digital photos. Simply drag and drop your design features onto a "before" photo. Earthscapes includes a site plan designer, an estimator, and plant and hardscape libraries. VisualImpactImaging.com or 330/259-7661

Touch of concrete

Do you ever find yourself in need of a small amount of concrete? The new 3.5-yd. concrete mixer is just the answer. Fully self-contained and powered by a diesel engine, this attachment can be hoisted onto the truck within one minute ready to be loaded. With an Ampliroll HookLift, it changes your truck into a multi-tasking machine. AmplirollUSA.com or 866/822-3580

Be weather wise

Campbell Scientific's new Visual-Weather 3.0 software program integrates many enhancements from the previous version, including support for the ET107 and Toro T107, enhanced station-status and station-data screens, as well as improved Web output and FTP support. Changes have been made to the underlying database to allow faster report generation. A free trial version is available. CampbellSci.com/visual-weather or 435/753-2342

Valve variety

Constructed of premium UV-resistant PVC plastic and high-grade stainless steel, K-Rain's new Pro-150 line of professional-grade plastic irrigation valves is available in 1-, 1.5- and 2-in. body configurations. Featuring a pressure rating of 150 psi, each valve includes the premium-grade K-Rain solenoid that is hand-assembled and epoxy-encapsulated for proven leak-free reliability and longevity. A double-beaded diaphragm provides years of reliable operation. All models carry a two-year limited warranty. Krain.com or 561/844-1002

New release

Intac International announces the release of Wintac 2010 business software. A completely redesigned user interface offers intuitive navigation and operation. In addition, more than 50 new features and enhancements have been added to provide more searching, sorting, reporting, and graphing options, as well as advanced mobile computing capabilities. A free demo is available. Wintac.net or 800/724-7899

Quiet control

Use Grasshopper's Turbine Blower, featuring zero-turn maneuverability, to clean leaves and debris from congested, hard-to-reach or wide open areas and long stretches of walkways and curbs in a fraction of the time required by backpack blowers and walk-behind units. Turbine blowers are quieter than most debris blowers and offer 360-degree nozzle rotation — controlled remotely from the operator's station — making it easy to direct airflow up to 9,500 cfm at more than 150 mph precisely for faster cleanup. The blower mounts on Grasshopper 700 and 900 Series power units. GrasshopperMower.com or 620/345-8621

Soil savvy

Available in 60 and 72 in., Bobcat's new soil conditioner for compact tractors and the

Toolcat 5610 utility work machine helps produce seed and sod beds. It also windrows and separates rocks or other ground debris, grades and levels topsoil, removes old sod and pulverizes clumps of dirt. When the removable end plates are attached to the implement, material is contained within to sort it from the finished area or to move it from one area to another. With the end plates removed, material can be spread evenly across the work area. Bobcat.com or 701/241-8700

Bark and bite

FINN Corp. offers the BB302 and BB705 models of trailer-mounted bark blowers. The BB302 is powered by a 33.5-hp, V1505 Kubota diesel engine and has a 1.5 cu.-yd.-capacity hopper. This allows the blower to deliver more than 10 cu. yds. of bark mulch per hour, five times faster than by hand. Featuring a 4.5 cubic-yard capacity hopper, the BB705 is powered by a 71-hp, V3300 Kubota diesel engine, which allows larger, heavier varieties of bulk material to be applied. Both models feature a radio remote control system, a 150-ft. durable, flexible hose and a rear-mounted hose reel. FinnCorp.com or 800/543-7166

Cleaner air

Stihl's professional BR 600 backpack leaf blower offers vigorous blowing power, a low emissions engine and comfortable weight. A recent study conducted by the Porsche Engineering Group GmbH found that this unit is up to 28% more fuel efficient than competitive models, which can provide up to \$644 in fuel savings per unit in two seasons, depending on fuel costs and run time. In addition, it exceeds current EPA emission standards by 73%. StihlUSA.com or 757/486-9100

Walk or ride

Wright's Velke pistol grip mowers are available with deck widths of 32, 36, 48 and 52 in. It can be operated as a walkbehind for tight spaces, or it can be paired with Wright's Velke foldaway sulky for ride-behind convenience. The compact Velke has large drive tires and a hydraulic control system, with fewer parts for greater reliability.

Major League catchers

Specialty Equipment offers a complete line of steel, stainless steel and cloth grass catchers, all made in the USA. The "industry first" usage of a tough coat paint on the steel catchers give the units a similar finish and durability to spray-in truck bed liners. The stainless steel version offers the wear characteristics of aluminum catchers, with the durability of stainless steel. Both versions are available in 3.3- and 4.4-cu.-ft. capacities. A newly offered cloth catcher completes the lineup, with a durable steel frame and lightweight cloth bag featuring a poly-reinforced bottom for extended wear. *SpecialtyEquipmentUSA.com or 772/398-2270*

Go green

Both the Mete-R-Matic III (pictured) and Mete-R-Matic XL topdressers feature a patented Chevron belt that delivers uniform application regardless of moisture content, whether it's sand, compost, crumb rubber or calcined clays. An eco-friendly, patented ground drive system assures uniform spread, even at varying speeds. And with no hydraulics, PTOs or engines, speed calibration is not required. The Mete-R-Matic III features a 23-cu.-ft. hopper capacity; the Mete-R-Matic XL features a 60-cu.-ft. capacity. Both machines include a three-year warranty.

The lighter side

With new light material sides now available as an option for Earth & Turf's MultiSpread Model 320, the 1-cubic yd. topdresser virtually doubles its capacity when spreading light materials such as compost, calcined clay, etc. The maximum load capacity using the light material sides is 3,600 lbs. Available in two-wheel ground drive or hydraulic drive, the unit's 26 x 12.00-12 turf tires ensure easy pulling by 20-hp tractors. Its overall height with light material sides, plus narrow overall width, allows operators to reach in easily from either side to cut crumbed rubber super sacks when loading. Light material sides are available for dealer or customer installation, shipped either separately or together with new machines.

Hit the deck

Bri-Mar's Tilt-Deck Haulers, models CHT18-10 and CHT18-7, are 18-ft.-long tilt bed haulers with 10k and 7k GVWRs. The low-angle, diamond plate steel deck includes a power tilt function that simplifies loading and unloading operations. Both models feature 5-in. channel tongue and main frame and 2x4 tube outer bed rails; an easy-load, 10-degree tilt angle; recessed D-rings; a Monarch power unit for up/down hydraulics with a 20-ft. wired remote (a wireless remote is available as an option); tandem Dexter EZ Lube axles, both with electric brakes; 15-in. tires; rubber-mounted LED lights; an acid etch bath preceding a Valspar powdercoat finish; and a two-year warranty.

Bri-Mar.com or 717/263-6116

Quiet power

The Shindaiwa EB802 backpack blower features a convenient "hush mode" switch that reduces the sound level to 65 dB(A). In addition, the 4.3-hp, 2-cycle blower uses a special leaf guard design that minimizes any risk of overheating from leaf blockage. A newly designed and ergonomic lightweight frame uses a padded shoulder strap harness system that

Clean sweep

Haaga Sweepers are energy-smart, people-powered machines featuring a patented, dual-action brush system with a wear-resistant, belt-free drive. The 476 Turbo Indoor/Outdoor Sweeper weighs just 26.5 lbs. and cleans side-

walks, driveways, patios, brick, pavers, pool sides, along walls, in corners and can even clean short turf. It features a patented T-bar handle for hard-to-reach places. *HaagaGreatLakes.com or 651/695-1900*

Now in 3D

Structure Studios' new VizTerra 3D landscape design software allows an entire design to be in complete 3D, with hundreds of fully rendered plant and tree species. The realistic presentation even allows the customer to see in real time how the design appears at different times of day, from morning to night. The program produces professional plans ready for construction. Designers can choose from a library of more than 2,000 industry standard symbols to represent plant species and container sizes. Free technical support, training and software updates are included. *StructureStudios.com or 800/778-8996*

Pneumatic blower

Express Blower's new TM-45 spreads a wide variety of materials, including compost, mulches, soil blends, aggregates and wood chips, with a level load capacity of approximately 45 cu. yds. Powered by a 275-hp Caterpillar C-7 engine, the TM-45 is a fully self-contained, steel-framed aluminum box designed to be mounted on a variety of truck or trailer configurations. The patented Supplemental Injection System allows users to uniformly apply mixes through Express Blower's Terraseeding process. *ExpressBlower.com or 800/543-7166*

Versatile features

John Deere Landscapes' new zero-turn LESCO Z-Two Spreader/Sprayer, featuring a 19-hp, high-performance Kawasaki engine, offers ergonomic controls, an extra-wide stance, a 40-gal. liquid application tank and an 82-in., five-nozzle handheld wand for spot spraying. It also features a 125-lb. LESCO electric spreader with remote-actuated gate and side deflector. The design of the spreader and boom on a standard 2-in. hitch assembly allows the operator to move the spreader from the rear to the front, add an additional spreader to the front, or remove and attach the spreader and/or boom to a utility vehicle or truck. A carrying tray offers additional granular storage; an optional 15-gal. spot sprayer is available. *JohnDeere.com or 800/347-4272*

Durable and compact

The all-new SA 2700 handheld blower from Efcó offers a maximum air volume of 412 cfm and air speed of 146 mph. It's backed by Efcó's "Five Year No Fear" (five-year consumer, two-year professional) warranty. It also features a silenced muffler for reduced noise and double anti-vibration mounts for operator comfort. The SA 2700 is equipped with a 30.5 cc engine and weighs 9.9 lbs. In addition, it converts to a vacuum to collect leaves and debris, which are then finely shredded by four steel blades for reduced volume. *EfcóPower.com or 800/800-4420*
