INDUSTRY SNAPSHOT

THE GREEN INDUSTRY AT A GLANCE

LANDSCAPING IN THE NEWS

"... *if non-native landscaping is installed* along phase two of the Expo Line, the MTA will gravely undermine its environmental credibility and will torpedo what could have been a boon to the Los

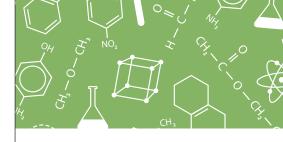

Angeles environment." — LISA NOVICK, Director of Outreach and K-12 Education, Theodore Payne Foundation for Wildflowers & Native Plants, on the Huffington Post blog discussing plans for The Los Angeles Metropolitan Transportation Authority

ON THE RISE

A look at how the industry changed from 2002 to 2007. The data from the 2012 economic census will be published in December 2013.

TIPS FOR SMARTER, SAFER CHEMICAL APPLICATIONS

By Brian Mount | FMC

Using registered and authorized pesticides from an authorized supplier or distributor enables you to do your job effectively and stay in good standing with the law. It also helps eliminate the potential for human and environmental harm associated with illegal or unauthorized products.

The Environmental Protection Agency requires registration applicants to submit more than 100 separate scientific studies and tests. Only pesticides

that "meet the highest standards of safety to protect human health and the environment" receive EPA approval. Choosing only registered and authorized pesticides and carefully following label directions is essential to protecting your customers and the planet.
