

## Multi-position winged snow plow

Western's Prodigy Multi-Position Winged Snow Plow automatically positions its patented mechanical wings for plowing efficiency, whether in straight-ahead scoop mode or when angled for windrowing. The plow is available for truck and skid-steer loader applications. The UltraMount 2 mounting system features a one-piece frame design for strength and durability.

## Steel beam/fabric buildings

Legacy offers fabric buildings with structural steel beams instead of open web trusses. This new engineering concept is designed to provide a cost-effective, long-lasting solution for salt and sand storage facilities. Tall peaks provide space for tipping trucks to maneuver inside, while heavy-duty beams support conveyors for efficient transition of materials.

## Roof deicing system

The RoofHeat STEP roof deicing system uses an exclusive polymer blend that heats when electricity passes through it. This thin, flexible heating element has the ability to self-regulate its electrical consumption, making it energy-efficient. Because of its ability to accept AC or DC current, solar and wind power can also be directly integrated to the system.

## Skid-steer line

Skid-steer snow blowers are offered for a wide variety of flow rates, starting as low as 15 gpm. Seven models are available in 72- to 84-in. widths. Features include a universal coupler, a single motor design and an electric spout rotator. Adjustable skid shoes, reinforced body braces and shear bolt protection are standard.

## Skid-steer plows

Blizzard now offers both the Speedwing multi-position winged-blade and HD Series straight blades for skid-steer loader applications. Speedwing clears an 8 ft., 7 in. swath in straight-ahead scoop position and a 7 ft., 10 in. swath when angled for windrowing. The HD Series is available in 7.5-, 8-, 8.5- and 9-ft. blade widths.

## Dual-stage snow thrower

The 1830EXLT is a dual-stage snow thrower with a heavy-duty auger to feed snow into the housing; a high-speed impeller to discharge the snow; heated handles; power steering and a standard LED headlight for greater visibility in unfavorable conditions. A heavy-duty hydrostatic transmission provides power to the track drive system to tackle snowdrifts.

## Utility vehicle plow

The Nordic Auto Plow attaches to any vehicle and allows users to plow up to 8 in. of snow from driveways. Weighing less than 50 lbs., it is readily moved into position and attached to the vehicle in minutes. Its rugged, ABS plastic rounded blade is designed to glide over uneven surfaces and prevent damage to driveways.

## V plow

The Fisher XV2 V-plow features a new flared blade design. The blades now rise from a 31-in. center height up to 39 in. at the outer edge on the 9.5-ft. models. Stainless steel blades are available in 7.5-, 8.5- and 9.5-in. widths; the two widest blades are also available in 14-gauge steel with Fisher's Storm Guard powdercoat finish.

## Bulk spreader

The SnowEx SP-1875 Bulk Pro Spreader offers a two-stage auger system, independent spinner/auger controller, low-maintenance direct drive system and other exclusive features. Spread width is infinitely variable from 5 to 30 ft. The pivot mount requires no drill holes in the truck bed and allows the spreader to swing away, providing full tailgate or rear door access.

## Hydro snow thrower

The new Hydro Pro Sno-Thro features Ariens' first hydrostatic transmission in a snow thrower, allowing for infinitely variable speed selection. The series features four hydrostatic drive models, including the Hydro Pro 28, 32 and 36 (pictured), and the Hydro Pro Track 28. They are cold-start capable, requiring little to no warm-up time.

## Training videos

To address the standards of the U.S. Occupational Safety and Health Administration (OSHA), LS Training has released five new training videos for landscape contractors on snow and landscape equipment operation, safety procedures and ways to reduce liability. Developed in cooperation with the Snow & Ice Management Association, the 30-minute videos are available online with an annual subscription.

## Truck-mounted spreader

Built to carry 6 cu. yds. of material, the SHPE6000 spreader features the largest poly hopper in the SaltDogg line. An in-cab console features independent controls for the auger, spinner and vibrator. The series is completely self-contained and mounts on utility vehicles, pickups, dump trucks and platform trucks.

## Snow blower for compact tractors

The new 600CT features the industry's first concentric-axis design: The 18-in., four-blade impeller rotates the same direction as the auger to effectively direct snow into the discharge chute. Its 74-in. cutting width and 28-in. cutting height is designed for tall drifts and snow piles.

## Mower-mounted snow thrower

The DriftBuster features a 180-degree rotating discharge spout. With the exclusive QuikConverter implement system, any Grasshopper FrontMount zero-turn mower can go from mowing to snow throwing quickly without tools. An optional electric lift and electric spout rotation with steering lever-mounted joystick control are available.

## Salt or sand storage

The Dura-Box provides snow removal professionals with a cost-effective, secure salt or sand storage bin. Features include industrial strength, a molded-in lid stop, a reinforced lid, an inner stackable design and a sloped lid for added water resistance.
