SPECIALTY CHEMICALS

Echelon Herbicide

Echelon is the first herbicide in its class with a dual mode of action. It controls weeds from the foliage down and from the root up, with efficacy and long-lasting residual for preemergent crabgrass and Poa control. It's available as a sprayable application or as a dry application on fertilizer for most cool- and warm-season grasses.

Tribute Total

Labeled for 55 grassy and broadleaf weeds, Tribute Total postemergent herbicide can now be used on Zoysiagrass as well as Bermudagrass. Each 6-oz. container treats between 1.875 and 6 acres. With a 60.5 percent water-dispersible granule formulation, it requires less storage space, transportation and less-frequent container disposal.

Yardage

Yardage is a three-in-one combination adjuvant that helps applicators optimize the performance of pesticide applications. This acidifier, penetrant and drift-reduction product provides a triple action method that helps create the ideal pH conditions in the tank, improves pesticide penetration of pest surfaces and maximizes the amount of solution that lands on target.

PRODUCT SPOTLIGHTS

Eco 200

The new Eco 200 topdresser is designed to handle compost, soil mix, pellets sand and heavy bulk materials. Its reverse-spin, dual-wheel broadcast system delivers a uniform spreading pattern even with heavy materials. The new four-wheel design handles increased weight distribution while keeping its stability. While sporting the same 1/3-cu.-yd. hopper, the Eco 200 has an improved larger hopper opening.
