StrongBox™ Enclosures: Taking On The Elements For Over 25 Years

Our extensive line of StrongBox™ heavy duty stainless steel enclosures have been protecting critical components from man and nature for over 25 years. We offer a complete array of weather and vandal resistant irrigation, plumbing, and electrical landscape enclosures and meter pedestals. We also manufacture a full line of horticultural tree tying and sprinkler support products for landscape professionals.

Our commitment is to provide the highest quality products, customer support, and prompt product availability in the industry. Call or visit our website to specify VIT products for your next project.

LOOKING A LITTLE THIN?

LAWN COME OUT OF WINTER LOOKING A BIT STRESSED?

USE MILORGANITE.

Don't forget to incorporate Milorganite when seeding, sodding, or repairing dead patches.

Milorganite's nutrients help speed up lawn development, and the slow-release, non-burning nitrogen stays in the soil profile to feed young roots.

For more information contact
Jaime Staufenbeil at 1.800.287.9645
