

New Homelite XL-Automatic

prunes, limbs, trims, and cuts

30% Faster!

It weighs only 14 pounds,* but cuts 30% faster on all woods . . . 10" limbs in 5 seconds! It has 35% greater fuel capacity than the famous Homelite XL-12 Chain Saw. Automatic chain oiling speeds cutting, reduces wear on bar and chain. Simple to handle in the tree — or on the ground, even for close cutting. Enough power to cut 4-foot diameter trees . . . even cut 15" hardwood in 20 seconds. Maintenance is negligible.

See it now. Demonstration is FREE — at your Homelite dealer, or in your own orchard or grove. *Homelite's XL's are the fastest selling chain saws in the world.*

*less bar and chain

HOMELITE **A textron**

TWIN TANK model

POWER KNAPSACK MISTBLOWER DUSTER

Spray, dust, wet-dust, and apply granules with the same machine; no extra attachments needed.

NO DISMANTLING OR REBUILDING — Two separate back tanks and the exclusive KWH 'non-clog' nozzle permit single or simultaneous application of wet and dry chemicals. Cover up to 40 ft. swaths. Simple fingertip controls give precise regulation of output and allow instant switching from liquid to dust or granules and vice-versa. Sturdy... yet only 26 lbs.

Knapsack Models: 2 and 4 HP — Trailer Models: 5-36 HP

All- out weed control!

Diamond gives you the most potent weapons for your war against weeds. Three great Diamond products give you the efficiency and safety in weed control that is not only desired, but demanded!

DACTHAL®—pre-emergent weed killer. It destroys the toughest weeds while they're seeds.

DACAMINE®—post-emergent non-volatile weed killer.

It goes to the roots to wipe out hard-to-kill, deep rooted perennial weeds.

DACAGIN™—pseudoplastic spray gel. You mix weed killers with it to reduce physical spray drift. For more information about these tested and proved products and a plan of action for All-Out Weed Control, write today. We'll send a weed killing expert on the run.

Diamond Chemicals

Diamond Alkali Company, 300 Union Commerce Building, Cleveland, Ohio 44115

WEEDS TREES AND TURF

1966 SUPPLIERS GUIDE

Weeds Trees and Turf presents below its annual Guide to Suppliers of vegetation control chemicals and equipment for use in urban/industrial areas. There is a mixture of common and trade-marked names (indicated by an asterisk*). This has been unavoidable since usage and recommendations of researchers refer to a particular chemical by one or the other, depending upon the newness of the compound, whether its common name is easier to use, or industry acceptance.

There will also be some differences of opinion over the inclusion or omission of certain chemicals under particular use categories. Here again confusion exists among reference sources. We have made our choices on the basis of most frequent mention in our surveys which preceded this compilation. Readers' comments and suggestions are invited to help us improve future editions. Keep this year's Guide handy for frequent use.

Advertisers in *Weeds Trees and Turf* are listed in boldface type.

3 for the

money

Chinch bugs and sod webworms in any turf and eriophyid mites in Bermuda grass. All three get their comeuppance when you use Ethion. Ounce for ounce no chinch bug killer outperforms it; one application can control up to six weeks or longer.

Ethion

Make More Money

Avoid Competition Automatically Capture All Repeat Orders

Completely Satisfy Your Customers

(and your sales staff plus yourself)

Sell the Very Best Materials Confidently

To accomplish all this and more . . .

Sell Your Own **Private Labeled Products**

Yes, now you can have your own PRIVATE LABEL on all or any number of products that will sell better and faster, and will be in constant demand from your company and your company only.

By selling superior materials with only your company name and address on the label means you can, more efficiently, profitably, and confidently sell these materials because you know:

1. Whatever time you spend with your customer, educating and instructing him on your product's uses and merits, will not be wasted as he cannot obtain this product elsewhere.
2. Once your customer uses your products and sees the spoken results come true, you are guaranteed that all reorders will come directly to your company. (No one else will have it.)
3. You can safely advertise these products because you are guaranteed that all sales will be yours.
4. You are assured that all formulations and products under your own label are the finest obtainable as they have been thoroughly tested under actual varied growing conditions and have been formulated the finest way possible; therefore, they are always uniformly consistent in formulation and will give the results expected.
5. If, and when, technical advice, information, and help is needed, you can be sure that Green Lawn Laboratories' agronomists will always give you personal assistance fast and efficiently.
