

CHEMICAL BULLETIN

FOR SOD WEBWORMS,
ARMYWORMS, ANTS:

CHLORDANE—America's leading turf insecticide kills practically all grass-killing soil insects, and most surface insects, too! One application keeps soil insect-free for 5 years or more. Chlordane's long residual action gives you better control. Chlordane is easy to work with, has no offensive odor. Ask for Velsicol Chlordane in either liquid or dry formulations.

FOR GRAY LEAFSPOT,
FAIRY RING, PHYTHIUM:

VELSICOL® MEMMI .8EC—effective for warm and cool season grasses, this emulsifiable liquid concentrate gives long-lasting protection against many turf diseases. It mixes in minutes, needs no constant agitation, won't clog nozzles, and it leaves no sediment to clean out of the spray tank. Economical, too. Try it now.

Save turf—save time with the Velsicol *complete line* of quality turf chemicals: Velsicol® "2-1" and Velsicol® Memmi .8EC for turf disease control; Bandane® for crabgrass control; Banvel® D 4S and Banvel® D+2, 4-D for weed control; Chlordane for insect and crabgrass control; and Velsicol Pestmaster® Soil Fumigant-1 for greens renovation. Ask your supplier for them.
