

GROUND'S GROOMER

Keeps large turf areas in tip-top condition

Renovates, removes thatch, sweeps and flail mows in one operation

The Ryan GROUND'S GROOMER attaches to a tractor equipped with a 3-point hitch and PTO. The operator can adjust blade height or depth, as well as empty the 5-cubic-yard hopper without leaving the tractor seat.

The hopper has a double steel door. At the top of the hopper is a wire screen to prevent stones, etc., from being thrown out.

Its 5-foot-swath reel is equipped with four rows of combination mowing and slicing blades. The reel can also be easily changed to all mowing blades, making it a "flail" mower.

Blade cutting ranges are from 2" into the ground for vertical slicing - to 3" above ground for rough mowing. All blades are "free-swinging" and rotate in reverse. This design creates air turbulence which blows leaves, thatch, clippings, etc., into the hopper.

The GROUND'S GROOMER picks up thatch, clippings and debris in a 5-foot path.

The operator easily empties the 5-cubic-yard hopper from the tractor seat.
