

Introducing McCulloch's new Power Mac 6. The world's lightest chain saw. It weighs only 6½ pounds.*

Here's a chain saw you can lift easily with your little finger. A saw so light, so compact it's not much bigger than an electric knife. Notice how the "Master Grip" handle is located directly over the center of gravity? That means you can use just one hand to move the Power Mac 6 safely and easily between cuts. The grip is padded for comfort and all controls are grouped underneath just a finger's reach away. Squeeze the trigger and the light-weight magnesium-aluminum engine delivers more cut-

ting power than most chain saws weighing twice as much. You can cut enough firewood in an hour to last all winter. Zip through an 8-inch log in 6 seconds. Fell trees up to 2 feet in diameter. Use it to clear land, prune limbs, even build small buildings. The Power Mac 6 is big news. And there's lots more news from McCulloch this year, including the amazing "Quiet Line"—with the "Sound Silencer" muffler that reduces noise impulses up to 75%.† Ask your McCulloch dealer. He's in the Yellow Pages.

*weight less bar and chain †Compared to standard cavity-type mufflers.
