the **GREAT** one!
Highland Colonial Bent

Just possibly, Highland Colonial Bentgrass is the greatest value in grass seed today!

A highly attractive blue-green, cool-season grass, it is one of the most economical of the fine-bladed varieties and has every attribute required for a truly luxurious turf.

Highland Bent may be seeded alone or in a mixture . . . is adaptable to many soils and climates . . . is durable under heavy foot and light vehicle traffic and thrives on close-cutting to 1/4 inch.

With some 8 million seeds per pound, the potential number of plants is great. Highland is also popular for overseeding in Southern regions.

If you would like complete data on cultural practices, seeding rates, fertilization, etc., please write to:

**We never tire of hearing
our customers brag. . . .**

. . . about how much better and more economical our chippers are than anything else they've used.

Of course, we design and build them that way. The heart is the 300-pound flywheel and high-speed, tapered blade which chew smoothly, inexorably, through the work material with the safe flexibility that only Asplundh's special engineering features can provide.

Don't take our word. Ask for the specifications brochure "Asplundh Chippers to Fit Your Need" and for a free, no-obligation demonstration. You'll see why an Asplundh Chipper is best for you . . . and as good as you'd expect from the world's largest tree expert company.
