FEED WITH NITROFORM®

organic nitrogen...

...which provides up to six times more plant food than activated sewage sludge; and provides up to ten times more than some organics. Available as 38-0-0 for direct application, and in formulations where it is at least 50% of the nitrogen source, Nitroform® nitrogen is long-lasting, nonburning, and nonleaching.

Used in soil mixes at the rate of 5 lbs. per cubic yard, Nitroform gives the steady nitrogen supply needed by the plant and by the mix ingredients. Nitroform is also a good source of nitrogen for field stock and for new plantings.

WEED WITH...

...**HERBAN**® pre-emergence herbicide and keep the soil free of competing weeds and grasses. Herban may be applied to nursery stock and landscaped areas any time of the year before weed seeds start to germinate. Two applications annually will keep out susceptible weeds; yet Herban does not carry over from year to year.

...**AZAK**® crabgrass herbicide and keep this pesty plant from snuffing out good turfgrass. Apply Azak to established turf before crabgrass seeds germinate for seasonal control.

Take the trouble

Diamond Shamrock gives you

The System

of weed and disease control.

With the 1-2-3 punch that knocks out weeds and diseases before they can give you trouble.

1. Dacthal kills crabgrass and other undesirable weeds and grasses before they come up.

2. Dacamine effectively eradicates growing broadleaf weeds.

3. Daconil 2787, the ONE fungicide, controls a broad spectrum of turf disease organisms. Try these three great ways to take trouble out of turf.

out of turf.

Dacthal[®] 1.

is the premium preemerge herbicide proven most effective through field testing and years of use. Controls crabgrass, *Poa annua*, and 14 other undesirable weeds and grasses. One application lasts all season. For *Poa annua* control follow label directions.

Dacamine[®] 2.

herbicide controls broadleaf weeds such as dandelion and plantain without hurting your grass. Kills deep—down to the root tips—for complete weed eradication. But only where you spray it—non-volatile Dacamine won't vaporize to injure desirable plants.

3.

—the ONE fungicide—handles a *broad spectrum* of disease organisms not just one or two. And it does it right through the time you need it most. Turf grasses have exceptional tolerance to Daconil 2787, even in hot, wet weather. So you can maintain lush, deeper green turf all season.

Daconil 2787[®]

If you're looking for a way to have healthier, more beautiful turf, ask for our folder AG-207. From Agricultural Chemicals Division, Diamond Shamrock Corporation, Dept. H 2170, 300 Union Commerce Bldg., Cleveland, Ohio 44115.

MOVING?

Changing Your Address?

If so, notify our circulation department right away to be certain the magazine reaches you at your new location. The Post Office won't forward your copies. So when you write us, make it at least three weeks in advance of your moving date, and include your old address, as well as the new one. We'll see you don't miss a single issue.

Send old and new address information to:

WEEDS TREES and TURF

Circulation Department
9800 Detroit Ave., Cleveland, Ohio 44102

We never tire of hearing our customers brag. . . .

. . . about how much better and more economical our chippers are than anything else they've used.

Of course, we design and build them that way. The heart is the 300-pound flywheel and high-speed, tapered blade which chew smoothly, inexorably, through the work material with the safe flexibility that only Asplundh's special engineering features can provide.

Don't take our word. Ask for the specifications brochure "Asplundh Chippers to Fit Your Need" and for a free, no-obligation demonstration. You'll see why an Asplundh Chipper is best for you . . . and as good as you'd expect from the world's largest tree expert company.
