**THE ONLY FERTILIZER  
 PACKET SYSTEM**

Unmatched for long term feeding

The fertilizer packet is a system of fertilization. It offers plant nutrients to the target plant in such a way that nutrient loss is minimized, nutrient utilization is maximized, fertilizer damage to the plant is averted, and costs of labor and supplies are reduced.

Can you imagine — no maintenance, no labor expense for 1, 3, 5, 8 years, no burning, no waste, no mixing, no measuring! You don't lift one finger, ever, for fertilizing, only one green thumb for counting your dollar profits.

*the Luxury Grass*  
**Highland Colonial Bent**

Just possibly, Highland Colonial Bentgrass is the greatest value in grass seed today. It's one of the most economical of the fine-bladed varieties and has every attribute required for a truly luxurious lawn or turf. With some 8 million seeds per lb., the potential number of plants is great.

Highland can be seeded alone or in mixtures with other fine-bladed grasses, is free of noxious weeds and *Poa Annua*, and will thrive even when close cut to 1/4 inch.

For years it has been used in overseeding programs because it retains excellent color in cold weather when Southern grasses are dormant.

## Increase Productive Man Hours

# with DICO SIDE-O-MATIC

Are you losing valuable man hours loading and unloading sod by hand? With a Dico Side-O-Matic Unloader, one man can load and deliver an entire load to one spot or distribute it around the site. Your Side-O-Matic dealer will give you more complete information on how Dico Side-O-Matic Unloaders can increase your productive man hours on the job. See him today or call 717-845-1655.

## BECK'S BIG ROLL SYSTEM ... HARVESTER, LOADER, LAYER

Use your 3-point hitch equipment

This is the fastest system on the market. Cut and roll up to 1200 yards per hour without manual handling of sod, and lay it mechanically as fast as it's harvested. Inexpensive tubular reels take less space than pallets, are lighter, last longer, and permit easy loading and unloading with a fork-lift mounted on a 3-point hitch. All lifting and handling is done by machine. Because it slashes labor costs for the landscaper, it is a sales machine for the grower. Stretches sod 3% to 5%. Leaves lawns smoother with fewer seams and joints.
