

Wilt not, want not

Are you winning the war against winter kill, summer scald and transplant shock? Thousands of growers, nurserymen, grounds maintenance men, landscapers and foresters minimize wilting losses with WILT PRUF. The world's number one anti-desiccant, WILT PRUF was proved 40 to 50 times more effective in stopping excess water-loss than leading substitutes. Test details on request. *Write on your letterhead for 50-page technical manual of applications.*
