

# STIHL 08S

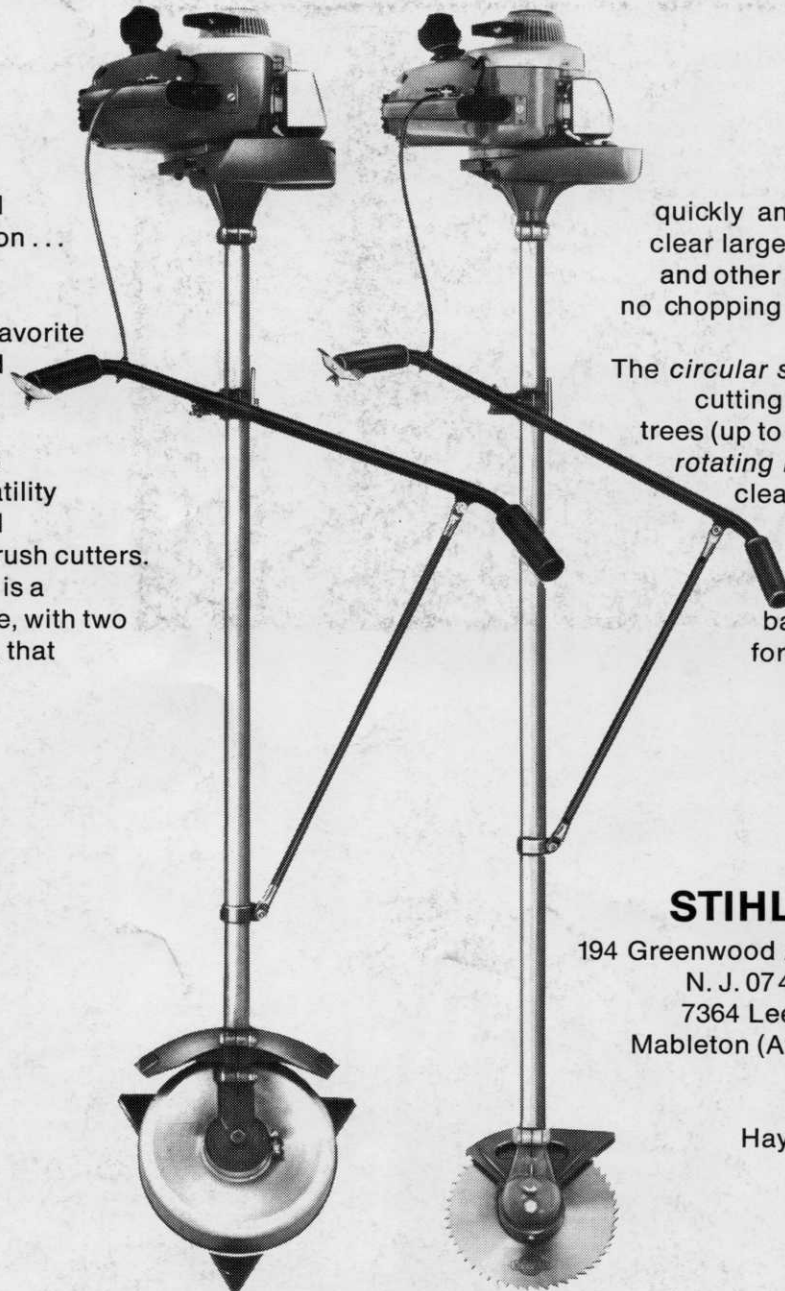

Cut Weeds, Brush and Trees..3Ways..Better!

The trio pictured here all have one thing in common... the famous STIHL-08S powerhead. Consistently one of the favorite saws of farmers, orchard and nursery men, utility crews and pulpwood cutters — the STIHL-08S has also proven its versatility as the power unit behind our high performance brush cutters. The STIHL Brush Cutter is a gasoline powered scythe, with two interchangeable blades, that

quickly and effortlessly lets you clear large areas of brush, weeds and other growth. No bending... no chopping... and no muscular fatigue!

The *circular saw blade* is perfect for cutting underbrush and young trees (up to 6" in diameter) and the *rotating knife* is the greatest for clearing matted shrubbery, weeds, tall grass and even seaweed.

A trio, which in balance, design and performance are unmatched!
