

A SAFE, SENSIBLE SOLUTION FOR WATER WEEDS.

It's called ORTHO Diquat.

Until recently chemical control of aquatic vegetation has been a big disappointment. Either it didn't work at all or it destroyed things indiscriminately. Diquat solves both problems. It's highly effective against a broad variety of both floating and submerged weeds. It's amazingly fast acting and easy to apply. Nor does it stay around long because it's deactivated on contact with soil in any form.

Diquat when used as directed is safe for fish, too. In fact, the safe levels of Diquat to fish are 2 to 4 times greater than the maximum dosage recommended. You use it with complete confidence.

Diquat is specially recommended for eliminating weed congestion in boating areas, ponds, lakes, residential water fronts, drainage canals, and commercial waterways.

Look around your town, your county. You probably know of dozens

of places needing the ORTHO Diquat treatment right now.
