

baron

KENTUCKY BLUEGRASS

The green Baron is here! Discovered in Holland and now grown in America exclusively by Lofts Pedigreed Seed, Inc., Baron Kentucky Bluegrass has been tested and acclaimed by outstanding agronomists in the United States.

Baron is a Kentucky Bluegrass unlike any discovered thus far. It germinates faster and reaches a deep green density ideal for sod, prestigious lawns and sports locations. It is slow growing and is especially adaptable to close mowing—as low as 3/4".

Baron is winter hardy, maintains a fine winter color, and its leaves stay relatively unblemished by leafspot, rust, stripe smut, and gray snowmold.

Baron Bluegrass has sturdy broad blades which interlock to make a crisp surface ideal for holding a golf ball on the fairway.

In fact, in all respects Baron Kentucky Bluegrass from Lofts is the most remarkable grass seed you can buy. All Baron seed is CERTIFIED BLUE TAG, poa annua and bentgrass free.

A patent has been issued by the U.S. Federal Government for Baron Kentucky Bluegrass.

BARON cluster, left, shows abundant roots and rhizomes topped by sturdy, broad blades which have been mowed to about one inch, compared to common bluegrasses center and right.

Other newly improved varieties of grasses now available from Lofts include Jamestown Red Fescue, Exeter Colonial Bentgrass and Kingstown Velvet Bentgrass—all developed at the University of Rhode Island.
