

baron

U.S. Plant Patent No. 3186,
Dwarf Variety

the aristocrat of Kentucky bluegrasses

This is the remarkable **baron** Kentucky Bluegrass grown and marketed in North America exclusively by Lofts.

Laboratory tests show that **baron** germinates faster than all but one other bluegrass variety, grows slowly, and can be mowed as low as $\frac{3}{4}$ inch; so it is ideal for golf courses, fine lawns, sod fields, industrial and commercial locations. The broad blades interlock to make a crisp, beautiful surface.

baron is extremely winter-hardy, keeps its deep-green color throughout the cold months, and is highly disease-resistant . . . all Certified Blue Tag. Poa annua and bentgrass free; minimum 98% pure seed and minimum 85% germination.

baron is available as sod from leading sod growers across the country.

For more details and the name of your nearest **baron** distributor or sod grower, call or write Lofts.
