

Which is cheaper, five men and rakes or one man and a Jacobsen sweeper?

It's surprising how often you can analyze a turf care chore and discover how to get the same job done faster and cheaper with the right kind of turf care equipment.

Jacobsen Distributors can help you figure out, in black and white, just how much it's costing you in man-hours to sweep, or mow, or even seed an area.

Then compare the same operation with getting it done by one man and new Jacobsen equipment. You can see for yourself how time and money can be saved.

That's just part of what a Jacobsen distributor considers as giving good service.

We not only want you to buy the best equipment for the job, we want to make sure that you're convinced it's the smartest thing you can do.

Beyond that, we can probably help you arrange a financing or leasing program to help you get the equipment that will start saving you money right away.

Why not ask your Jacobsen distributor to do a cost analysis on your turf care chores? It won't cost you anything to get an answer.

But it could be costing you something if you don't.
