## STILL THE LEADER

There are many fine leaved perennial ryegrass varieties but only one **Certified Manhattan "Turf-Type" Perennial Ryegrass**. Still a leader because those who work with grass on a professional basis know **Certified Manhattan** is true to variety.

Each lot of **Certified Manhattan** is tested for seedling fluorescence. If it is over two percent, it cannot be **Certified** as **Manhattan**. Fluorescence indicates contamination by annual ryegrass or other unwanted varieties. So, with all the new fine leaved ryegrasses on the market... **Certified Manhattan** is still the leader. What's more, we believe the high quality standards of **Manhattan** will keep it "the leader".

### ▪ Wear Tolerance . . .

Tests at Michigan State University using both a wheel and sled, rated Manhattan best for wear tolerance over the other fine leaved perennial ryegrasses tested.

### ▪ Cold Tolerance . . .

Michigan State cold tolerance tests ranked Manhattan as one of the most cold tolerant of all the new turf type perennial ryegrasses tested.

### ▪ Cutability . . .

Cutability tests at the University of California, Davis, placed Manhattan number one in cutability of the popular varieties of fine leaved perennial ryegrasses tested.

RESEARCH • PRODUCTION • MARKETING

**'PROGRESS from the GROUND UP'**

## **WE'RE STEPPING UP OUR RPM!**

Grass seed production and marketing is a complicated and competitive business these days. We must continually increase our "RPM s" to keep ahead of the game. At TURF-SEED, INC., we have three departments: Research, Production and Marketing (RPM). We are constantly researching new varieties that show superior characteristics in the turf categories. We test these new varieties for performance. If they show improved performance, we place them in production. We know how to grow high quality grass seed, and when you have outstanding research and production . . . the marketing of top quality turf seed is a most satisfying step in our RPM. Call us if you want to REV-up your turf program.
