

"What Shortage?"

"With Baron, it's delivery as usual."

Peter Loft, Chairman, Lofts Pedigreed Seed

What better testimonial to Baron's performance? The climatic stress which caused the bluegrass supply problem made our point better than any ad we could write. Baron . . . the world's outstanding Kentucky bluegrass weathered the seed crisis. Baron endured and is available to meet your needs for a tough bluegrass that can stand up to stress and traffic.

Order Baron . . . The Kentucky bluegrass that came through the crisis. Let it come through for you.
