

**WE DON'T MEAN TO
UNLOAD ON OUR COMPETITION BUT...
OUR GT-7 IS WIDER, TOUGHER,
STRONGER, HAULS MORE PEOPLE
AND 50% MORE PAYLOAD.**

It has two seats and two headlights instead of one. It's easier to service, has undentable fenders and a diamond steel rear bumper.

You can buy it with a full line-up of accessories for aerating, seeding and spreading, top dressing or spraying.

One more thing. It sells for about the same price as the leading competitor. We don't mean to unload on them, but we just had to say some of these

things before you went ahead and bought their machine before trying our GT-7.

For a demonstration on your course, just call your E-Z-GO Branch Office or Distributor. They're in the Yellow Pages. Or call us at (612) 542-0516.

SEVIN[®] WORKS WHILE PEOPLE PLAY.

On one hand you have pests.
Destroying. Damaging. Stinging.
Biting. Annoying.

On the other hand you have
people. Out-of-doors people. Living.
Working. Playing. Camping.

That's why SEVIN[®] carbaryl
insecticide is the answer to your pro-
fessional grounds maintenance
needs.

Versatile, broadly
registered SEVIN controls
as many as 44 insects that
attack trees, shrubs, flower-
ers, turf...and people.
And it has a long record
of effective control of
target pests.

Environmental concern?

SEVIN controls these 15
major pests. Plus 29 more!

That's another good reason to use
SEVIN, since it is biodegradable, and
has no objectionable odor. When
compared to other commonly used
insecticides, it ranks low in toxicity

STOP! ALL PESTICIDES CAN BE HARMFUL TO HEALTH
AND THE ENVIRONMENT IF MISUSED. READ THE
LABEL CAREFULLY AND USE ONLY AS DIRECTED. to people,
farm ani-
mals, birds and fish.

It offers other benefits too.

SEVIN is compatible with
many commonly used fun-
gicides, miticides and other
insecticides. Choose from
several formulations to best
fit your specific needs.

People. Pests. Pro-
fessional grounds mainte-
nance. SEVIN carbaryl inse-
cticide. They all go together.

For more information about
SEVIN, contact your pesticide sup-
plier or Union Carbide. Find out first
hand why SEVIN is one of the
world's leading insecticides.

SEVIN IS THE ANSWER.

Finally, An Aid For Teaching Turfgrass

Superintendents, Contractors, Lawn Care Managers, New, On-the-Job Reference. The Turf Managers' Handbook is a comprehensive, organized approach to turfgrass science and care. It has been designed and written by leading turf specialists from Purdue, Dr. William Daniel and Dr. Ray Freeborg, for on-the-job reference and as a text for students. The book contains 150 illustrations and 96 color photographs. Data includes 240 tables and forms. Included are specifications for rootzones, employment, calculations for

chemical applications, and extensive metric-imperial conversion. Business and technical aspects of turfgrass management are covered in this 424-page book. Planning, purchasing, hiring, construction, and plant selection are put together for easy on-the-job reference. Markets covered include lawn care, sod production, golf course management, cemeteries, athletic fields, and low maintenance areas. If it concerns turf, it's in the Turf Managers' Handbook.

Electrostatic ornamental sprayer reduces drift and improves chemical adhesion to plant surfaces due to a process which charges spray droplets making them electrically attracted to plant surfaces. The spray droplet charger was developed by

the University of Western Ontario under Canadian government funding. The charge generator is powered by the tractor's 12-volt electrical system. The charging system must be fitted to a low volume spray system. It is the sprayer of the future.

Model 284D diesel tractor comes with a front-wheel drive attachment for added traction. A three-cylinder, 30-horsepower diesel engine powers the International Harvester machine. It has advanced hydraulic lift and independent hydraulic brake

systems and full instrumentation, easily reached controls, and a cushion-back seat for ease of operation and comfort.

Other features include positioned-controlled category 1, three-point hitch; two-speed PTO that delivers 27 horsepower to handle a variety of attachments; and easy-shift, four-speed transmission with high-low

range selectors for a total of eight forward speeds and two reverse.

Acid Iron Plus is a natural occurring deposit of soluble sulfur and iron used to correct improper soil chemical conditions and mineral deficiencies by Soil Products Development Co. The product can be used as a top-dressing using a drop type spreader.

Write 706 on free information card

Rugged HT23 gasoline tractor contains a powerful twin-cylinder 23-horsepower cast iron Kohler engine and hydrostatic drive with single pedal control that eliminates shifting and leaves both hands free for steering and control of attachments. Two-spool hydraulics raise or lower optional attachments while simultaneously changing their angle. The massive two-speed rear axle and differential provide direct in-line power, shaft driven, from engine to

transaxle for good energy transfer. FMC Corp. makes this Bolens model

with a choice of 48- or 54-inch mower deck and a wide selection of available attachments, such as backhoe, loader, post hole digger, and more

New Toll-Free ARBOTECT "Hotline"
For information about Dutch elm disease control,
or to find out how to order ARBOTECT, call
800-356-7202.
Wisconsin residents call 608-222-0624

ARBOTECT® 20-S

The strongest Dutch elm disease protection you can give a tree.

ARBOTECT 20-S fungicide helps make it possible to save many elm trees that otherwise would be lost.

Injected into the trunk of the tree, ARBOTECT builds a barrier against Dutch elm disease inside the tree itself. It helps prevent the disease in healthy elms, and can often save infected trees if they are treated early enough.

Used along with sanitation, insect control, and root graft elimination, ARBOTECT can significantly improve the effectiveness of a Dutch elm disease control program.

ARBOTECT differs from other elm fungicides in several important ways:

- It is registered at rates high enough to be effective.
- It is concentrated, requiring much less water for injection, so trees can be treated much faster.
- Thiabendazole, the unique active ingredient in ARBOTECT, is highly effective against

Ceratocystis ulmi, the fungus that causes Dutch elm disease.

- Even though it is more effective and convenient, ARBOTECT costs about the same to use as other elm fungicides.

This year, put ARBOTECT to work in your disease control program. It's the strongest protection you can give an elm against Dutch elm disease.

Arbotect

Strong protection for elms.

Doral Country Club, Miami

We're Sold on CBS...

I have used various varieties of ryegrass for winter overseeding on courses in Florida. For the last two years we have used CBS Blend at Doral and we were very pleased with the results. We had excellent greens throughout the winter. We found CBS Blend the most disease resistant, and a better transition as the Bermudagrass came back in the summer. Yes, we will use CBS again this fall.

Richard Kemmel
Superintendent, Doral Country Club
