

# Now Fiber Mulch

from  
Con-Serv

*for  
efficient  
hydroseeding*

## **A low-cost, practical way to plant grass so it will stay and grow.**

Con-Serv fiber mulch is a specially recycled material for hydroseeding, so grass can take root firmly in a weed-free environment. It's an instant anchor blanket which permits gradual, healthy absorption and retention of rain for maximum growing conditions without erosion.

### **Green Thermal Blanket**

An attractive, water-soluble green blanket can be sprayed on in one application. It acts as a thermal barrier on the ground to foster germination, and then gradually decomposes as the grass naturally roots into the soil.

**DON'T  
CUT OUT  
QUALITY.**

**DO IT RIGHT,  
WITH  
STANLEY.**

Quality, by our standard, is something which goes a lot further than making tools. To Stanley, it means: a full line of tree trimmers for every job; the best warranty in the business; complete parts backup; and distributors to help you anywhere in the country. It's also the efficiency, safety and dependability of hydraulic power. We don't trim on anything so that you're able to do your trimming faster. Stanley Hydraulic Tools: 3810 S.E. Naef Road, Milwaukie, Oregon 97222. Phone (503) 659-5660. Telex 360771. Write or call.

**WE DON'T MEAN TO  
UNLOAD ON OUR COMPETITION BUT...  
OUR GT-7 IS WIDER, TOUGHER,  
STRONGER, HAULS MORE PEOPLE  
AND 50% MORE PAYLOAD.**

It has two seats and two headlights instead of one. It's easier to service, has undentable fenders and a diamond steel rear bumper.

You can buy it with a full line-up of accessories for aerating, seeding and spreading, top dressing or spraying.

One more thing. It sells for about the same price as the leading competitor. We don't mean to unload on them, but we just had to say some of these

things before you went ahead and bought their machine before trying our GT-7.

For a demonstration on your course, just call your E-Z-GO Branch Office or Distributor. They're in the Yellow Pages. Or call us at (612) 542-0516.
