The Swenson Pickup Package.

Heavy duty ice and snow control for light and medium duty vehicles.

When street and highway maintenance departments want top quality ice and snow control equipment, they come to Swenson. Now, you can too. The Swenson Pickup Package has been trimmed down in size. But we didn't cut corners on quality.

In front, there's an Easy-Hitch snow plow. Rugged and maneuverable, it mounts or dismounts in minutes. The driver has complete in-cab control. And it's custom engineered to fit the newest '80 and '81 trucks.

In back, there's a PV-300 V-box material spreader. It mounts and stores as a single unit. Capacity is over 1½ yards. And it's powered by either an auxiliary gas motor or the truck's hydraulics.

Whether you need a plow, a spreader, or the complete package, now you can insist on Swenson quality. Call today for the name of your nearest dealer.

Swenson—the tough choice.

Introducing the Front Line.TM

The first mower built tough enough to be a Cushman.

There's a good reason why Cushman has been around for such a long time: We build equipment that lasts a long time.

And that's never been more obvious than with our new Front Line rotary mower.

Built for keeps.

The Front Line's 72" mower deck is made of 12-gauge carbon steel, reinforced and arc welded. It has a multi-disc PTO clutch, direct drive to the deck gear box with a sealed and lubricated shaft drive. The hydrostatic transmission is driven by two continuously engaged "A" section belts with self-adjusting tension.

There's no need to worry about overloading the Front Line's engine. The combination of our high torque engine and specially designed mower deck allows you to mow tall weeds and fine grass.

Superior performance.

The Front Line's cut in fine grass is so smooth, you won't believe it was made with three separate blades. That's because the blades overlap 1 1/2" to reach every inch of grass in the full 72" swath. Also, the cutting height is adjustable to eight positions, from 1" to 4 1/2" in half-inch increments.

Operating the Front Line couldn't be easier. With individual front wheel brakes, and wheel-type steering controlling a single rear wheel, you get tight maneuverability and better control on varying terrain.

The Front Line's mower deck makes your job easier, too. It extends more than a foot to

one side, so you can trim right up to fences or trees. And it lifts hydraulically for transport over curbs. What's more, a large capacity fuel tank lets you work up to 6 hours between refills.

100% Cushman.

Most rotary mowers use engines built by outside suppliers. Not the Front Line. Its 18-hp, air-cooled engine is all-Cushman. So is the differential. And the PTO drive. Which means all parts and service are provided by your Cushman dealer.

Send us this coupon today, and we'll tell you more about the new Front Line: The only mower built Cushman-tough. 80-CUT-5

YES, I want more information on the new Front LineTM rotary mower. Prove to me that it really is tough enough to be a Cushman.

Stanley Hydraulic Tools introduces its PR29/30 heavyduty tree pruners with a lightweight head that reduces operator fatigue. The pruners weigh

only 9 pounds; are 7 feet, 2 inches long; and have a 2¼-inch cutting capacity. The PR29/30 comes with fiberglass or aluminum handles, both thermally insulated

The Sensation Corp.'s latest mower is the 11L2-0 that is powered by a 2-cycle Kawasaki engine. Features of the 4.3-hp engine are a cast iron cylinder sleeve; few moving parts

for less maintenance; positive engine lubrication for mowing slopes; a 5-quart capacity fuel tank; and a case hardened steel crankshaft. A non clog suction lift blade cuts a 21-inch swath from 1 to 3 inches in height in ¼-inch increments.

J I Case features its DH4 hydrostatic drive trencher that permits forward/reverse and variable dig-

ing chain speeds with reduced engine problems. The DH4 trenches

Compact riding trenchers... PLUS!

Your Ditch Witch 2200 or 2300 machines can become much more than just riding trenchers. Add the versatility of a utility backhoe, a hydraulic breaker and/or the hydraulic boring unit package...and you have added a lot more production potential.

The A220 Backhoe was specially designed for the 2200 and 2300 models. This 5-foot-range unit can help meet those unexpected underground construction challenges. It has an 8-foot, 6-inch reach and does not interfere with backfilling.

The Roto Witch III hydraulic boring unit, a hydraulic breaker or any of several hydraulic tools can be used on the same machine as the construction needs dictate.*

Yes, if you have 2200's or 2300's in your fleet, you've got more work potential than really meets the eye. Contact your nearest Ditch Witch dealer or send for more information.

*Quick-couple hydraulic manifolds are available as an option on 2200 and 2300 models.

Write 143 on reader service card

I could use more work potential.

up to 406 mm (16 inches) wide and 1,829 mm (72 inches) deep. Two hydrostatic systems power the ground drive and the attachments.

Tuflex Mfg. Co. has introduced a fiberglass spray tank. The PC 200-gallon divided tank contains two

separate 100-gallon compartments for diversified spraying. Throwing two valve switches, the suction and return line goes from one chemical spraying to the other.

Bowie Industries is combining its Hydro-Mulcher with Ag-Chem Equipment Co.'s Ag-gator 2004 all-terrain chassis for easy grass and

plant growth in undeveloped areas and difficult terrains. The hydro-mulcher plants, seeds, sprigs, fertilizes, waters, sprays, and mulches in a one-step application that covers 200 feet.

Jacobsen Div. of Textron Inc., is offering the Turfcut, a riding rotary mower with an optional 54-inch dozer blade, front and rear traction weights, and tire chains. Besides dozing snow, debris, or materials, the machine mows with a 50- or 60-inch cutter deck.

**THE
QUALITY
NITROGEN**

NITROFORM

TM

NITROFORM[®] IS THE LONGEST FEEDING HIGH ANALYSIS ORGANIC NITROGEN.

Longest feeding is important when it's your job to keep the turf looking good all year. Especially now with the high costs for turf care.

Longest feeding means you can worry less. Repeat applications are narrowed down. You save energy, labor bills and headaches. While your turf stays healthy and green. Also good for trees and shrubs. Nitroform from Boots Hercules is the

standard of quality by which all other nitrogens are measured. It feeds naturally as your plants need it, balancing the feeding between roots and top growth.

Non-burning. Non-leaching. Odorless. Ideal for seed beds. Blue Chip[®] for dry application. Powder Blue[™] for liquid application.

If your fertilizer isn't lasting long enough, it doesn't contain Nitroform.
