

# Pair for the Course

## Penncross Penneagle

Penncross greens are known around the world for their consistent, high quality putting surface. Penncross has genetic diversity assuring disease resistance . . . germinates fast, establishes quicker . . . superbly consistent, less grain for true putts . . . greens up earlier, holds summer color better . . . great for overseeding winter greens in south.

Penneagle was developed through 18 years of research and 5 years of testing. This new variety of creeping bentgrass has these selected attributes of a great all-purpose grass for the entire course. Penneagle has a broad genetic base for greater climatic adaptability . . . is not overly aggressive, but competitive with *Poa annua* . . . has tight, more upright growth characteristics . . . is finer leaved than most bents . . . has excellent putting and playing qualities . . . was bred for disease resistance.
